OF THE

## SECRETARY OF INTERNAL AFFAIRS

OF THE

COMMONWEALTH OF PENNSYLVANIA,

FOR THE YEAR ENDING NOVEMBER 30, 1876.

---

PART I.—LAND OFFICE.  
PART II.—ASSESSMENTS.

---

HARRISBURG:

B. F. MEYERS, STATE PRINTER.

1876.

## COMMUNICATION.

---

DEPARTMENT OF INTERNAL AFFAIRS, }  
HARRISBURG, *December 4, 1876.* }

To His Excellency JOHN F. HARTRANFT,

*Governor of Pennsylvania:*

In compliance with the requirements of the Constitution, I have the honor to present you herewith, for transmission to the General Assembly, reports of this Department for the year ending with the 30th ultimo, as follow :

Part I. Land Office.

Part II. Assessments.

I am, very respectfully,

Your obedient servant,

WILLIAM M'CANDLESS,

*Secretary of Internal Affairs.*

# REPORT.

---

## MONEY RECEIVED.

The sum of five thousand five hundred and forty-nine dollars and five cents was received in this office and paid into the State Treasury during the fiscal year; \$2,777 98 thereof was for purchase money and interest; \$1,310 49 for warrant and patent fees, and \$1,460 58 for copies of warrants, surveys and other documents, as will appear by the accompanying detailed statement.

## UNPATENTED LANDS.

It was estimated in the last annual report of this office, that there were over thirteen thousand tracts of land, embracing 2,340,000 acres, more than one-thirteenth of the area of the entire State remaining unpatented, upon which there was due the Commonwealth three-quarters of a million of dollars.

In conformity with acts of Assembly, passed from time to time, various methods were successively adopted for the collection of the money due on these lands. That prescribed by the act of 11th of April, 1872, suggested by the experience of the officers under the former enactments, was esteemed the most efficient and at the same time the fairest to the land-owner. "This act made it the duty of the Surveyor General (now Secretary of Internal Affairs) to make out and forward to the several county surveyors, from time to time, as the board of property may determine, special lists of unpatented tracts, and required the county surveyor, of the proper county, to give notice in writing to the owners, agents or occupiers of the lands described in said lists, that they were unpatented, and that unless the arrearages shall be paid within six months from the time of giving such notice, the board of property may direct proceedings to be commenced by the Attorney General to enforce payment.

During the term of the last Surveyor General a number of such lists were sent to the proper county surveyors and the required notices served. This action resulted in the payment of a large amount of money into the treasury. But, with the advent of the prevailing financial stringency, the board of property, in view of the oppression and hardship that would be inflicted upon many of our citizens occupying lands against which the

Commonwealth has a just claim, if the payment of these arrears was rigorously enforced, deferred for the time, to order suits to be brought or to direct other lists to be sent out. This humane policy has had a marked effect in the receipts of money on unpatented lands, reducing the amount collected during the year just closed to about one-fourteenth of that received from the same source in 1873.

All the unpaid balances and liens are justly due the Commonwealth, except in cases of interfering or overlapping tracts releases for which are provided for by law, and should be collected whenever the financial condition of the country will allow. Great leniency has been exercised by the Commonwealth toward the holders of unpatented lands, their burdens lightened by the reduction of the rate of interest proportioned to the original price of the land, and great indulgence allowed, but while some will discharge their indebtedness on being made aware of it, others will procrastinate as long as it is possible to do so, and will pay only when compelled by a rigorous execution of the law.

#### PATENTS.

The suggestion of the last Surveyor General, that a law should be passed preventing the issue of a patent until six months have elapsed from the time of the return of survey by the county surveyor, mentioned with approval in the last report of this department, is again brought to your attention.

#### RE-SURVEYS.

Your attention is again respectfully called to the growing necessity for some provision to be made by law authorizing a re-survey of the actual lines of patented tracts, and the preservation of a record of the bearings, distances and monuments found upon the ground. During the periods of land speculations, when large tracts of country were hastily and imperfectly surveyed by careless or unskillful artists, great errors were committed, hence the lines represented on the returns and perpetuated in the patents, differ materially from those marked upon the ground. As long as these marks exist and can be verified by the usual tests, disputes seldom arise. Corner or line-trees may decay, or be burned or cut down, and other marks destroyed or removed. Against the disputes generally following the happening of these contingencies, the land holder should be protected by the authorization of a correct survey and a record of its metes and bounds.

The following cases of actual occurrence are mentioned as evidence of the defect of the present regulation, and in demonstration of the necessity for corrective legislation: In 1784, A obtained a warrant for 300 acres,

on which a survey, represented to contain 300 acres, 10 perches and allowance, was made in 1785, and patented in 1798. B purchased and entered into possession of the tract. The lines being plainly marked, and corner trees all standing, he could trace the lines without an instrument. After residing upon the tract many years he had a survey made, which revealed the fact that each of the six lines inclosing his land, was much shorter than the distance represented in the patent, and that the area was short about seventy acres. Junior surveys were made surrounding this tract, and it subsequently became the property of C. Meantime, by the clearing of land, cutting of timber and destruction by forest fires, some of the original lines and corners had become extinct. C, unacquainted with the lines, procured a surveyor, and placing in his hands a copy of the original survey and its counterpart, the patent, and taking him to one of the remaining corners, directed him to find and re-mark his boundaries. Running out the courses and distances of the patent, he overlapped the adjacent surveys on three sides, and supposing that he was entitled to all the land within the metes and bounds of his patent, became involved in litigation, which was finally decided against him, with a very heavy bill of costs to pay.

In 1848, D obtained a warrant for 40 acres of land, and the same year a survey represented to contain that quantity was made and returned. The lines upon the ground, however, included an area of probably 70 acres. In 1852, another warrant was procured and located, as it is claimed, upon the residue of the tract surveyed in 1848, after limiting the warrant of that date to the actual courses and distances given on the return of survey, and regardless of the marks upon the ground. The owners of each of these surveys contested the right of the other to the thirty acres. Both tracts were patented in 1853, before this alleged overlapping was known to the owners.

The difficulties above described seldom arise in the older counties, or in cultivated land where the removal of the original land-marks are followed by fences or other visible indications of boundaries, but frequently occur in mountainous regions, and in the iron, coal and lumber districts.

#### UNLOCATED WARRANTS.

The books of the land office show that thousands of warrants and orders have been issued upon which surveys have not been returned. A small number of these have been executed, and through the negligence of the owner returns have not been made, but in a majority of cases the land for which they were issued was appropriated by older rights. Under existing statutes a new warrant cannot be issued unless the application was proven before a magistrate of the township in which the land applied for is situated, nor until thirty days' notice shall have been given by advertisement

inserted in the nearest newspaper of the filing of the application, thereby giving due publicity in the neighborhood of the land, and affording any person interested an opportunity of resisting the issue of a warrant by proceedings before the board of property. Prior to the act of 14th of April, 1874, (see appendix,) no such safe-guard existed, and on the receipt of a return of survey on any of these old warrants, made in conformity with the regulations of the office, it must be accepted and a patent issued on the payment of arrears and fees, and no opportunity afforded an adverse claimant to interpose a caveat unless he should be apprised of the action of the county surveyor. The necessity, therefore, for legislation either declaring all warrants heretofore issued to be void unless surveys are returned thereon within a fixed time, or requiring proper publicity to be given of the time of the return of surveys made in pursuance thereof, is obvious if a disturbing element is to be removed from our land system.

Cases are known of owners of warrants having their lines marked so as to include a much larger area than could be returned upon their warrants, and exercising acts of ownership over the land under the color of title, and thereby withholding from the Commonwealth the purchase money for such excess land and the interest that would be due thereon.

#### SURVEYS OF COUNTY LINES, &c.

In an act passed on the 8th day of May last, it was directed that all maps, drafts, reports and other papers relating to surveys of State or county lines, State or turnpike roads, railroads, canals or other public improvements remaining in the office of the Secretary of the Commonwealth, should be transferred to this department, and that thereafter all such papers should be deposited in this department instead of in the office of said Secretary. This act also provided that a copy of the report of all commissions appointed to re-establish any of the boundary lines of this Commonwealth, or to re-survey, re-mark, alter or change any county line, should be deposited in this department.

#### NEW BUILDING.

The addition to the "Land Department" building, made necessary to accommodate the Department of Internal Affairs, authorized by the act of the 18th of March, 1875, has been completed and occupied. For convenience the business of the department has been arranged as follows, to wit:

I. LAND OFFICE.—This contains all the records and documents that were in the charge of the Surveyor General at the time of the expiration of his office, on the first Tuesday of May, 1875, and includes the papers and records relating to the original title to all the lands granted by the proprietaries or the Commonwealth, and the surveys of county lines, State roads, &c.

II. ASSESSMENTS.—Under this head are included the annual reports made to the Department by the commissioners of each county, of the valuation of taxable property and the county debt.

III. INDUSTRIAL STATISTICS —It is the duty of this bureau to collect, compile and publish statistics in regard to the wages of labor and the social condition of the laboring classes, and the productive statistics of agriculture, mining, manufacturing, commercial and other business interests of the State.

IV. RAILROADS.—Each railroad, canal, navigation and telegraph company is required to make an annual report, embracing in detail its operations and affairs during the financial year.

The report of the department is issued annually in four parts, each part embracing one of the subjects above mentioned and designated by the corresponding title and numeral.

#### METRIC STANDARDS.

A set of metric standard measures of "Weight," "Volume" and "Length," prepared in accordance with a joint resolution of the United States Congress was forwarded by J. E. Hilgard, Esq., Inspector of United States weights and measures, to his Excellency, Governor Hartranft, and by his direction has been placed in this Department. The use of the metric system is authorized by act of Congress, approved the 28th day of July, 1866. A table of these measures and their equivalents in denominations now in use, will be found in the appendix.

#### SURVEYORS.

The important interests committed to the surveyors of our lands, whether public or private, should demand integrity, skill, and proper education on the part of the artist. The records of our courts are replete with evidence of the inaccuracy of many of our surveys—some to be attributed to the incapacity of the surveyors' assistants and not a little to his own want of skill. It is a duty that the government owes the people to protect them, as far as possible, by well considered legislation from the commission, by surveyors, of costly mistakes discovered often too late to apply a remedy.

A re-examination of the surveys of county and township lines, turnpike, State, township and other roads, reveals a greater degree of inaccuracy than is found in our land surveys, rendering it difficult, and in some cases almost impossible, to recover the original location.

The best security against contests about lines or boundaries, is to have them visibly marked by durable monuments, and next to have the bearings or angles taken, lines measured and plot made by or under the immediate supervision of an experienced and skillful surveyor, then, if, at a subsequent

time, it was necessary to recover a lost line, it could, by the exercise of the same care, be restored with some precision. In this, as in any other vocation, the best skill is commanded by the highest reward. The time is not far distant in the future, if it has not already arrived, when the public will demand that only those shall be privileged to practice the art of surveying, where so many interests are involved, who have successfully passed such an examination of proficiency as may be prescribed by law.

#### TRUE MERIDIAN LINES.

This subject was referred to in the last report of the Department. For the purpose of directing attention to the importance of the observance of the law providing for the erection of true meridian lines, requiring surveyors to test their instruments thereon, and to record the declination or variation of the magnetic needle, the following circular letter was addressed to the president judges of several of the courts of common pleas, the county surveyor of each county, and to other persons interested in or familiar with the subject:

COMMONWEALTH OF PENNSYLVANIA, }  
DEPARTMENT OF INTERNAL AFFAIRS. }

HARRISBURG, ..... 187-.

DEAR SIR:—The land Surveys of Pennsylvania having nearly all been made with instruments directed by the magnetic needle, the necessity for a reliable record of the progressive declination of the needle is evident to every practical surveyor. A knowledge of this declination is a pre-requisite to the accurate re-tracing of old lines and the re-establishment of those where the monuments have been removed.

Prior to the year 1850 no effort had been made by the State government to provide for such a record. On the 26th day of April of that year, (P. L. 595,) an act of the General Assembly was approved requiring the commissioners of each county to establish a true meridian line and a standard measure for two and four pole chains. It was made the duty of every land surveyor in the month of April in each year to adjust and verify his compass and chain, and to enter in a book to be kept in the office of the county commissioners of the proper county, the variation of his compass from the true meridian.

In many counties full and complete records as contemplated and required by that act have been kept, which have proven to be of great utility to surveyors and other persons interested in the subject.

Although this law has been in force for more than quarter of a century, no collation of the statistics contained in these county records has been

made by the government. Several of our sister Commonwealths have, during the last few years, issued reports on the subject containing information of great value to their citizens. With a view of embodying in my next annual report, such statistics as can be obtained from the county records and from reliable private sources, I address you this communication and respectfully ask that you will fill the blanks on this sheet with abstracts from your county records and such other trust-worthy information on the subject of the declination of the needle in your locality as may be in your possession, and mail the same to me at your earliest convenience.

Very respectfully yours,

WM. MCANDLESS,  
*Secretary of Internal Affairs.*

1. Location of meridian line.
2. Date of establishment.
3. How marked.
4. Amount of present declination of the needle from the true meridian, and the progression since the establishment of the line.
5. Note other reliable tests by the retracing of fixed and certain lines, etc.
6. Remarks and suggestions.

To which replies were received as follow :

ADAMS—JOHN G. BRINKERHOFF, C. S., *Hunterstown, October 26, 1876.*

1. In the Diamond, Gettysburg.
2. September, 1852, by Charles A. Proctor.
3. The southern polar monument is a granite block, surmounted by an iron spindle. The compass point is due north of the south polar monument one hundred and three feet, which is a granite block surmounted by a solar dial plate and an iron with sight and plummer, and with a centre hole for all staff compasses.

4. From the book of records, I find the surveyors of Adams county have attested their compass needles about annually, from September, 1852, until August 21, 1866, since which time the meridian line of Adams has been entirely discarded by us surveyors, from the fact of its location being under the influence of local attraction. The variation as recorded by the surveyors is from  $2^{\circ} 45'$  up to  $3^{\circ} 30'$  west, and while from observation and experience the declination was evidently west, many of them represent the reverse. A standard measure for surveyors' chains established in the court house.

6. I commenced practical surveying in the year 1847; have served ten years as county surveyor, as the records of your Department will show, and therefore have had considerable practical experience. When I commenced practical surveying, by tracing old marked lines with their corner

monuments standing, I then found the highest variation to be from  $2^{\circ}$  to  $2\frac{1}{4}^{\circ}$  west, and that on surveys made about 1815, and have found the declination of the magnetic needle gradually westward to the present time, or near the present time. I have traced lines run as early as 1742, and found the variation to have been eastward then to what it is at the present time, and I have repeatedly discovered that the old marked lines run about the year 1765, could be traced and run with about the same bearing in and about 1865 that they had been run with one hundred years before. The greatest variation at the present time in our locality on old marked lines is from  $3^{\circ} 15'$  to  $3^{\circ} 30'$  west, making, of course, in all my figures, due allowance for a slight difference in compasses and for diurnal variation.

I have frequently spoken to our board of county commissioners, and have spoken to the clerk of the present board since I received your communication, about the dilapidated condition of our county meridian, and shall urge them to establish one in some other locality, outside the influence of water pipes causing local attraction.

ARMSTRONG—HON. JACKSON BOGGS, P. J., *Kittanning, Oct. 19, 1876.*

I called with the commissioners of this county and showed them your enclosed letter, and they inform me that the matter has been entirely neglected, and that no meridian line or chain lengths is yet fixed, and no book kept, but they promise to have the matter attended to as soon as they can, and then report to you. As to further information I have surveyed none for more than twenty-five years past, and of course am not posted.

R. S. SLAYMAKER, C. S., *Kittanning, Oct. 5, 1876.*

1. None located.

5. I allow one degree to sixteen years. By this rule I have been able to trace old lines when the former survey was correct. I find in the old lines much careless surveying which makes it difficult to retrace all the lines of a survey.

6. The establishment of a meridian line would be of great advantage in the future, and would be to ascertain the annual change in the needle. Why the commissioners have not a line established I don't know, unless the want of suitable ground, as the county does not own any ground suitable to trace a meridian line.

BEDFORD—HON. WM. M. HALL, P. J., *Bedford, Oct. 5, 1876.*

1, 2, 3. A meridian line was erected in the fall of 1850, on the farm of the poor house property owned by the county, near to the town of Bedford, and was marked by locust posts at either end. The posts were some five hundred and eighty feet apart. Some years ago the poor house farm was sold and another purchased. The posts that marked the line are not now standing.

4. For a few years the surveyors tested their compasses and registered the variation. Obedience to the law was soon neglected, and long before the posts marking the line were removed the law was generally disregarded. I am unable to answer the fourth interrogatory. When the line was in use the variation was from one degree to one and-a-half degrees to the west of north, compasses differed to that extent, at least the registration showed about that amount of difference.

6. The law is a good one, with a slight modification. Instead of requiring surveyors to give true bearings, they ought to be permitted to give the magnetic bearings, and simply note on the draft the amount of variation of the compass. Most of the compasses are without verniers. I mean those used in this county, and many of the surveyors incapable of correctly changing the bearings from the magnetic to the true.

BERKS—DANIEL S. ZACHARIAS, C. S., *Reading, Oct. 16, 1876.*

No meridian established, neither is there any standard measure. I have called the attention of the county commissioners to the necessity of having a meridian line established, and invariably the answer was given, it is not needed, and that if the line was established it would only lead to law-suits—nearly all our surveyors being opposed to having a meridian line and say to the commissioners that there will be no end to law-suits if one is established.

BRADFORD—HON. PAUL D. MORROW, P. J., *Towanda, Oct. 17, 1876.*

1. Across the public square in the borough of Towanda—from south to north—in front of certain buildings; Presbyterian church, on the south, and the “Elwell House” on the north.

2. 1856.

3. Stone set in the ground on the west side of the entrance of the Presbyterian church, and inside of the church fence. This stone has hole in the top for “Jacob Staff.” On the opposite side of the public square there is a red and white mark on the water-table of the Elwell House—distance between stone and this mark about 23 rods.

4. [See note.]

A few years ago the commissioners made an effort to procure from the Secretary of the Commonwealth a correct chain measure, and were informed that he had never furnished any such measure to any county, and had none to furnish.

This I learn from E. B. Coolbaugh, recent clerk of the commissioners.

5. Am unable to note any at present; but it is well known that in running old lines, the surveyor (where he can find marks on the ground) ascertains quite accurately the variation, and thereby is able to locate lands with great precision. Our oldest marks are from 85 years upwards.

6. Surveyors' instruments and chain measures ought to be tested every year, and that too by an expert, and if they fail to present their instruments and chain measures for test should subject themselves to a penalty and be deprived of their right to collect for their services by any suit at law.

The test should be made at the county seat by an expert appointed or elected for that purpose, who should be paid by the surveyors, presenting themselves, and a certain fee be paid by each.

This suggestion is made on the spur of the moment—may be impracticable, but something ought to be done to make surveys of the same line, at the same time, more uniform.

[NOTE.—The annual tests made on this meridian from 1857 until 1868, as shown in the extract made from the surveyor's record by Judge Morrow, are so diverse and irreconcilable as to point a very strong probability that the line is in the vicinity of local attraction. For this reason the observations are omitted. *Dep. Sec'y.*]

BUCKS—BENJAMIN S. RICH, *Lahaska, November, 1876.*

1. At Doylestown, Bucks county, Pa., in the court house yard.
2. In the summer of 1852.
3. A platform of dressed stone is laid in lime and mortar on stone foundation about thirty-four feet in length, with two bolts thirty-three feet apart for a test of chains, a monument about seventy-five yards from the platform (on which a mark is made for the compass to set) was erected with a target line to sight to, this line was established by George Hart, a practical surveyor, and Richard Watson, who was a practical surveyor, now judge of our court.
4. The variation of my compass was four and-a-half degrees west in 1852, which was the variation of the greater part of the compasses at that time. The variation was scarcely perceptible from year to year. In 1856 it was four and three-quarter degrees west; 1859, five degrees west. The compass I then used was made by Benjamin Rittenhouse, but by one of later style made for me by Mr. Young of Philadelphia, I found the variation to be in 1860, four degrees thirty-five minutes west; in 1865, 5 degrees; in 1870, five and one-quarter degrees; in 1875, five degrees forty minutes west, which is nearly the same; 1876, not exceeding five and three-quarter degrees west, making the annual progression about five minutes.

I have adjusted all my surveys to this meridian from the time it was first established, and have used the meridian bearings in all my conveyancing, where new surveys had been made, noting the date of survey; but the greater portion of our conveyancing is from old deeds, in some instances the survey has been made more than 100 years ago. Some surveyors, I find, pursue the old custom of using the magnetic bearing, having paid no attention to the meridian. Nearly all our old surveys have been carelessly measured, and often with incorrect chains. When I first commenced sur-

veying in 1842, I established a test, at my residence, from the most correct measure I could obtain; my chain being according to test, I took it to Doylestown immediately after the test was established. Messrs. Hart and Watson were both there; they applied my chain to their test, and pronounced it correct; this satisfied me of the correctness of my test at home. I soon discovered that the frost operating on the foundation of the test laid down at Doylestown, affected it so much that it could not be relied upon. After two or three winters it was more than one inch too long. But there is a pole eleven feet long in the commissioners' office of correct measure, by which chains can be correctly adjusted.

5. All our old surveys being taken at various times, and by different compasses, our custom has been to ascertain the variation from the time the survey was made to the present, on some line where two adjacent corners are known, and by this variation trace the lines of the old survey.

6. From our record you will perceive that many of our surveyors have neglected to adjust their chains and test, and enter the variation of their compasses.

In 1852, twenty-two entries were made; 1853, thirteen; 1854, eight; 1855, twenty-one; 1856, seven; 1857, eight; 1858, nine; 1859, nine; 1860, ten; 1861, ten; 1862, ten; 1863, eight; 1864, eleven; 1865, five; 1866, three; 1867, five; 1868, three; 1869, seven; 1870, six; 1871, eight; 1872, two; 1873, four; 1874, four; 1875, eight; 1876, three. My entry is on the record every year except 1875, when it appears I have neglected to enter it on the book.

BUTLER. ——— ———

1. West wall of jail building.
2. November, 1874.
3. Brass points of iron rods inserted in the wall.
4. Present declination  $2^{\circ} 5'$ .

CAMBRIA—DAVID PEELOR, *Johnstown, November 27, 1876.*

1. There is no meridian line at this time in this county. There was one put up at the court house, but is not in use at the present time.

4. I have never taken the declination of the needle from the marks put up at Ebensburg.

I took the declination of the needle at Johnstown, Cambria county, Pennsylvania, February 1, 1875, and found it to be  $2^{\circ} 16' 42''$  west, taken in the evening at the western elongation of the Pole star. September 6, 1875, at Johnstown, eastern elongation, the variation was  $2^{\circ} 20'$  west. August 14, 1876, at Hopewell, Bedford county, eastern elongation, the variation was  $3^{\circ} 11'$  west. In Indiana, Indiana county, on the 11th August, 1857, the variation was  $1^{\circ} 12'$  west.

5. In 1864, at Johnstown, I run a line thirteen miles that was originally run in 1794, and I found in running it in 1864, the variation was  $2^{\circ}$  west.

6. In the winter of 1850, seeing the trouble that would hereafter occur in re-tracing old lines after the marks were obliterated, and the advantage of having something permanent in relation to the variation of the needle, and while a large amount of the original marks remained on the timber, I suggested to Wm. Evans, Esq., who was then in the Legislature from Indiana county, to have something permanent to show the variation of the needle hereafter, as we could not remedy what was before. Mr. Evans framed the bill, which I at that time examined, and considered the best we could do, and after showing the advantages it was passed. Now I would suggest that it would be kept up, and all places wherein it is not attended to, that the law be enforced if possible; and that some person be appointed by the Secretary of Internal Affairs to inspect them and see that they are permanent and correct, and each county to pay the expenses.

CENTRE—JOSEPH DEVLING, C. S., *Bellefonte, Oct. 26, 1876.*

No meridian line or standard measure has ever been established in this county. There is therefore no book of record kept by the county commissioners. Would it not be well for your department to adopt a plan for erection of a meridian line which would be permanent, and forward the same to the different boards of county commissioners, with a request that they have such lines established?

CHESTER—JOS. F. HILL, *West Chester, Oct. 31, 1876.*

1. The original meridian line was two stones placed some distance apart in the north-east part of the borough of West Chester, having the spire of the court house for the southern point, and was established in 1852. The line now in use was established on the grounds of the Chester County Agricultural Society by Thos. W. Harlan, Esq., in 1875, and is marked by two long marble stones firmly set in the ground, and even with the surface of the same, with a hole drilled in the top in which to put a small target.

4. Of the surveyors who have tested their instruments by the new meridian line and made a record thereof, I find the variation to be about  $5^{\circ} 45'$  west. In examining the records of the old line, I find a great many instruments were tested when the line was established in 1852, and the average variation to be about  $4^{\circ} 20'$  west, and on same line in 1872 the average was about  $5^{\circ} 15'$  west, making a difference of about 55 minutes in twenty years, or an average annual progression of two and three-quarter minutes.

Chains are tested by marks on the front portico of the court house.

5. A practical surveyor informs me that he prefers old well defined lines in adjusting his instrument in running old surveys. Some surveyors also,

have well defined lines of their own, so that they can test their instruments more frequently.

6. Not being a practical surveyor, I cannot give you as much information as you may desire. I have answered, at the request of Hon. William Butler, as we keep the record of the surveyors in our office.

CLEARFIELD—S. F. M'CLOSKEY, C. S.. *Clearfield, Oct. 10, 1876.*

Clearfield county is neither in possession of a true meridian line, nor a standard measure for chains, nor has it been since the removal of the old jail. I believe they had a line in the old jail yard, but it was not considered accurate, and surveyors paid no attention to it. Consequently no record of variation or declination of the magnetic needle has been kept.

Our commissioners will talk of erecting a true meridian just while you talk to them about it, but don't seem to realize the importance of it, or their obligation to do it. I would be glad if it was done, as we labor under an inconvenience for want of it.

JOHN L. CUTTLE, *Clearfield, October 4, 1876.*

1. A meridian was established on the jail property in Clearfield by Wm G. Waring, Esq., of Tyrone, and myself, about 1854 or '55, and a record of the variations of compasses was kept, and filed in the commissioners' office in a book, but the county sold the property and the book is lost, and no trace of it can be found. Since that time a new court house has been erected and the papers frequently removed, which accounts, in some measure, for the loss of a record fallen into disuse.

3. The monuments were of sandstone, about five feet in length, dressed with plain top and a hole drilled for a pin to place the compass on, placed in the ground about three feet, with a crease on which was placed a perpendicular rod.

4. The declination of the needle since 1855, is about one degree fifteen minutes by actual difference on lines run by me at that time, and the present. The want of monuments marking the meridian, leaving me the only mode of arriving at a conclusion on the subject. I have been engaged in surveying in this and adjoining counties since 1839, and at this time there is a trifle over one and one-half degrees additional variation that can be safely added. Original lines run by different surveyors vary a good deal and frequently the lines have to be run carefully to find the true bearing.

6. A meridian fixed permanently would be of great value to surveyors, as it would enable them with proved variation to their respective instruments to agree in the bearing of lines, which now may cause doubt and cast a doubt upon the minds of juries who are ignorant of the importance of the niceties required in actual work to arrive at correct conclusions.

COLUMBIA—HON. WM. ELWELL, P. J., *Bloomsburg, October 30, 1876.*

1. The law has not been complied with by the commissioners of Columbia county, nor by the commissioners of Montour county. I have called attention to the matter in both counties, and shall insist that the duty imposed on them by law be no longer neglected.

4. There are no records kept in the county which give any official information upon the subject.

5. Lines run in 1793, and running south, now run nearly south  $3\frac{3}{4}$  degrees west. Seven years ago, 1869, the variation was from  $3\frac{1}{4}$  to  $3\frac{1}{2}$  degrees. Mr. Geo. W. West, an intelligent and reliable, as well as practical surveyor, says: "The needle is traveling to the west at the rate of three or four minutes in a year. In the last four or five years it has traveled a little faster." Samuel Neyhard, Esq., also a reliable surveyor, says the declination is now about four minutes in a year.

I am fully aware of the importance of compliance with the law on this subject, and will urge the commissioners to take immediate action in the matter.

ISAAC A. DEWITT, C. S., *Rohrsburg, Oct. 21, 1876.*

5. The only test we apply in this county is the allowance of a variation of three minutes to the year in tracing old lines, and which we very often find incorrect.

6. The importance of establishing a meridian has frequently been laid before the board of commissioners of the county, but they have neglected to take any action in the matter.

CRAWFORD—HON. WALTER H. LOWRIE, P. J., *Meadville, Oct. 20, 1876.*

1. I am sorry to say we have no meridian line in our county, and of course we have no official record of any phenomena connected with the observation of such. I am informed that there was one some years before I came here, but in the building of the new court house it was destroyed by the builders taking one of its monuments for the wall of the same.

THOS. VAN HORNE, C. S., *Oct. 11, 1876.*

5. There are in the vicinity of this place well defined tract lines, made in the year 1794, that by our instruments at this time, show a declination of  $2^{\circ} 45'$ , *i. e.* lines that were north and south are now, say north  $2^{\circ} 45'$  east.

6. The commissioners of our county in 1850, or thereabouts, made some show of having established a meridian line, but so imperfect that surveyors preferred to find the variations by well known adjoining lines; which practice, so far as I am acquainted, still prevails. Such well defined lines are found here extending for miles. Our professors are about to establish

a meridian for the county, from which 'tis hoped much good to science may be realized.

CUMBERLAND—JOSEPH RITNER, *Mechanicsburg*, Oct. 20, 1876.

1. Cumberland county meridian line is located at the county alms house, two and a half miles east of Carlisle.

2. From the best data I can get, it was located in 1853 by John Harper, county surveyor.

3. By stones three feet high, dressed square, with a small iron pin set on the top; the body of the stones painted white, with a black stripe down the centre. The stones are about one hundred yards apart.

4. Owing to the careless manner in which the observations have been taken, it is impossible to give an average of all that would be reliable. They have been taken at irregular intervals, and in many instances with instruments without verniers, and nothing less than quarter degrees read. An average of nine observations, taken in 1854, show the variation of that year to have been  $2^{\circ} 10\frac{2}{3}'$ . An average of three observations, taken in 1876, gives  $4^{\circ} 2'$ . The nearest annual progression from 1854 to 1876, that I can approximate, is four minutes per year.

5. My experience in re-tracing old lines having fixed permanent marks, has been that the surveys of 1785, in this locality, can be re-traced by a variation of three degrees and ten minutes. I find also that an annual change of three minutes and fifty seconds gives me as near the true line as can be reached by calculation. I place the change here at about 1809. I find but little or no variation for two or three years each side of that.

6. I would suggest that the use of the magnetic needle be abandoned altogether, and the transit substituted, and that wherever the needle was used, that the surveyor be required to note not only the date of his work, but the exact variation in degrees and minutes from the old line, and that whenever new corners are erected, permanent stones be set, and in no instance to adopt a tree as a corner.

[Since the receipt of Mr. Ritner's communication, the blank sent Hon. M. C. Herman, P. J., was returned by J. P. Rhoads, Esq., containing about the same information as that given by Mr. Ritner.]

DAUPHIN—J. SIMPSON AFRICA, *Dep. Sec. Internal Affairs*, Nov., 1876.

1. In the capitol grounds, in the rear of the building occupied by the Department of Internal Affairs.

2, 3. The first line was established about 1855. Obstructions preventing its use another was fixed a few years afterward, only a few feet distant from the original line, and is marked at each end by a heavy cut stone, with the direction of the line cut on a lead centre on the top.

4. An observation made by John Roberts and Samuel Hoffer in the fall of 1854, gave  $3^{\circ} 6' W.$  as the declination of the needle. C. A. Schott of the United States Coast Survey found in an observation made at the capitol in July, 1862,  $3^{\circ} 44.5'$ . In October, 1874, H. Alricks, Jr. and J. Simpson Africa made solar observations for the true meridian, each using a different method, and found the declination to be  $4^{\circ} 51' W.$  The same result was obtained in tests on the line in the capitol grounds.

Progression from 1854 to 1862, 7.6 years, 38.5 minutes, equal to 5.1' per year.

Progression from July, 1862, to October, 1874, 12.3 years, 66.5 minutes, equal to 5.4 per year.

General average from 1854 to 1874, 5.3' per year.

ERIE—GEORGE PLATT, C. S., *Erie, October 16, 1876.*

1. The meridian line for this county is located in the Erie city cemetery.  
2. I can find no record when established, but I find the first record of declination to be in April, 1855.

3. By two monuments of marble placed about two hundred (200) feet apart. The monuments being about five (5) feet high, and are set in sandstone bases. The line being designated by vertical lines cut in the stone and filled with black paint.

4. Some needles record a declination of two degrees, and thirty-five ( $2^{\circ} 35'$ ) minutes west, while others give as high as two degrees and fifty-seven ( $2^{\circ} 57'$ ) minutes west, being about ( $2^{\circ} 46'$ ) mean variation west.

To give the progression since the establishment of the line, I have no better way than to give the record of the same needle from year to year that was first recorded: 1855,  $1^{\circ} 33'$  west; 1856,  $1^{\circ} 30'$  west; 1857,  $1^{\circ} 35'$  west; 1858,  $1^{\circ} 45'$  west; 1859,  $1^{\circ} 35'$  west; 1860,  $1^{\circ} 40'$  west; 1861,  $1^{\circ} 30'$  west; 1862,  $1^{\circ} 30'$  west; 1863,  $1^{\circ} 30'$  west.

The foregoing declinations were recorded by Samuel Low, who established the line when the monuments were placed in position. His record closed in 1863. The following is taken from Samuel Wilson's observations—1863,  $2^{\circ} 00'$  west; 1864,  $2^{\circ} 05'$  west; 1865,  $2^{\circ} 00'$  west; 1866,  $2^{\circ} 15'$  west; 1867,  $2^{\circ} 15'$  west; 1868,  $2^{\circ} 15'$  west; 1869,  $2^{\circ} 15'$  west; 1870,  $2^{\circ} 25'$  west; 1871,  $2^{\circ} 20'$  west; 1872,  $2^{\circ} 20'$  west; 1873,  $2^{\circ} 50'$  west; 1874,  $2^{\circ} 30'$  west; 1875,  $2^{\circ} 45'$  west; 1876,  $2^{\circ} 50'$  west.

The above declinations were taken during the month of April of each year, but there has been no record of temperature kept, neither has any allowance been made for diurnal variation.

5. There are very few land marks left in this county in comparison to the number that at one time no doubt existed.

The tests by measurement cannot be relied upon, for the reason that the tracts in this county are in excess of the same, and the surplus is not uniform, land here in many cases over-running the quantity called for by the old deeds to the amount of ten and fourteen per cent, beside the six per cent. allowance for roads, &c.

6. I would suggest that if we *must* use the needle, that each township should have its own meridian established at or near its centre.

The next best thing to do is to abolish the use of the needle entirely, and establish base lines for each township and city, and have them laid down and recorded, the true astronomical course and all surveys made by triangulation from that line. The bearing of the line would be of no consequence so long as it is known, or I should say that it need not necessarily be on the meridian, but on any bearing that may be most convenient for the locality.

In the first place a meridian line located at any one point in any county in the State, will not serve the purpose of ascertaining the declination of the needle only for that point.

Should you wish to make a survey a few miles north of that point, you would find such a change of declination that the needle would be comparatively useless, the same difficulty would occur if your survey were to be made south of the point, only the declination would be less in proportion.

There is a difference of variation between the east line of this county and the west line of nearly forty-six (46') minutes. Now when you take into account that one (1') minute error in course produces eighteen and one-half ( $18\frac{1}{2}$ ) inches departure in one mile, it is very easy to conceive what trouble would arise in running a line from six to eight miles (which I frequently have occasion to do) in length. The change of declination at points east or west of the meridian is much greater than at points north or south, but the change in any direction is sufficient to make the needle absolutely useless for accurate work even on short lines.

Should you adopt back and fore sights (which should always be done) in establishing long lines, you are still liable to two or three minutes error in your first sight, for I do not believe that there is any person who can determine the contact of the needle with the graduation of the compass, of even the largest size within three minutes to any certainty, and an error of that amount would be a serious objection in locating roads, or tracing tract lines any considerable distance.

Another objection to the common use of the needle is its diurnal or daily variation, which is not uniform, temperature having considerable influence over it. By dispensing with the use of the needle, we also deprive inexperienced men and boys from running lines and making surveys that tend only to mischief. In some localities where surveyors are not handy

some person will provide himself with a compass, and will run lines with as much assurance as if he were stretching a line between two posts a few rods apart. Such men do great injury by blazing trees through the woods, without testing their work or perhaps not knowing how. I have often found lines to diverge sixty feet in running two or three miles, and have invariably found it to be caused by inexperienced men, and perhaps inferior instruments.

The Solar compass would obviate a great deal of the difficulty, for you could be positive as to your meridian, provided that your adjustments were perfect, but there are not many surveyors that understand the use of them, and unless there was a law requiring their use would not provide themselves with one. If such a law were enacted it would have the effect of weeding out incompetent men; and here let me say that there should be a law requiring all surveyors to be examined as to qualifications, &c., by a competent board, and not be permitted to make surveys and record them unless they held a certificate from such board.

Surveying is as much a profession as medicine or the law, and no person should be allowed to practice it without authority any more than a lawyer should be allowed to practice in our courts without being admitted to the bar.

I would suggest for what it is worth, that there should be a carefully measured base line established in each township, the bearing of which should be ascertained astronomically, and the distance measured with carefully prepared rods, the line when measured to be made level by means of stakes and strips of boards tacked upon them, so that the contact of the rods may be made certain. At each end of the line I would set stones in such a way that they would not be disturbed by action of frost, the stones to have holes drilled in them to receive lead, and the trigonometrical points made in the head of a copper nail driven in the lead. From such a base line the whole township can be measured accurately by means of triangles, either side of any of the triangles forming new base lines, the length of which to be determined by calculation, and if proved will be as accurate as the main base.

It would take but a short time to establish lines through and around any township and record them, so that any surveyor would have no difficulty in finding and using them—the bearings of the different lines, of course, are ascertained by their angle with the base line; by this means there would be no difficulty in finding corners years hence, and the surveyor would not be misled by the eccentricities of the needle.

I think that if the whole State could be re-surveyed by means of triangulation, that what would be gained by re-assessment and saving of vexatious litigation, would more than pay for the survey; of course we cannot

change old land marks, but we can record them as they are, and give correct areas bounded by such.

FAYETTE—ANDREW J. GILMORE, C. S., *Uniontown*. Oct. 6, 1876.

1. At the east end of Main street, Union borough, Fayette county, Pa.

2. The meridian line was established in the year 1851; do not know the exact dates.

3. Two stone columns about four and one-half feet high, set on masonry, one north and the other south of the Eastern bridge, where the National road, or Main street, crosses Redstone creek, about six hundred feet apart.

4. J. R. Jamison's compass gave, in 1852,  $1^{\circ} 7\frac{1}{2}'$  west, and in 1873,  $2^{\circ} 30'$ ; average nearly four minutes per year. W. H. Speer's compass gave, in 1860,  $1^{\circ} 40'$ , and in 1869,  $2^{\circ} 19'$ ; annual average four and one-third minutes. A. J. Gilmore's transit in June, 1872, gave  $2^{\circ} 15'$  (noon,) and in October, 1876, (9 A. M.)  $2^{\circ} 33'$ ; annual average four minutes.

5. In my experience in running old lines, it seems that the needle was moving eastward prior to about the year 1812, and since that time it has been moving westward. I find lines that were run in 1785, to run about the same bearing with my instrument (which has the vernier set to read the true bearing by the meridian) would make the variation about two and a half degrees west by the magnetic needle. The line of no variation would seem to have passed through this county about the year 1840. From 1785 to 1812, the needle moved eastward; moving at the same rate westward from 1812, it would reach the same point in 1839 as 1785, leaving thirty-seven years it has been moving westward at the rate of four and one-third minutes per annum, would make one and two-third degrees, which is a little too much declination.

I am of the opinion that the meridian established here makes too much declination, although I am not certain of that. In comparing the reports, if this meridian shows more declination than others that should show the same, it would confirm that opinion.

FOREST—SAMUEL D. IRWIN, C. S., *Tionesta*, October 4, 1876.

I received your circular and instructions (in print) relative to a true meridian line in Forest county.

The law establishing a line as aforesaid was set at naught by the commissioners of this county. I called their attention to it some eight years ago, and once or twice since, but each board of county commissioners (although the law is imperative in its terms) has done nothing, but have made default, so that it is impossible to make any report.

Having run and traced many of the old warrant lines of the early patents in this county, I find the variation of the needle to be usually  $2^{\circ} 15'$  east;

or, in other words, to run a line run due north (magnetic course) in 1791 to 1794, the time most of our lands were originally surveyed, the direction or magnetic course now would be north  $2^{\circ} 15'$  east. I remember in 1866 trying some of these same lines, and the bearing was north  $2^{\circ} 25'$  east, and have so noted on some of my notes. So I believe the magnetic current is working back slowly. This may or may not be of any practical utility. This seems to partially answer your 3 and 4 interrogatories, yet only amounts as it is to a personal observation, which may be true of a large portion of the State.

Now a true meridian line should be established, I believe, in every county, so that the surveyor of wild lands can go to it yearly to adjust and test his chain and compass, in no other way can he be rightly qualified to discharge his duties as a surveyor. The double lines run through the woods, the law suits, troubles and griefs incident upon random running of lines, is a sufficient commentary on not having a system, a true meridian line to regulate and gauge the ever changing, treacherous magnetic compass.

FRANKLIN—JOHN W. KUHN, C. S., *Chambersburg, Oct. 30, 1876.*

4. The records of our county show declination at the time of the erection of the meridian line to have been as follows: Emanuel Kuhn, who was county surveyor at that time, records on January 3, 1852,  $1^{\circ} 42'$  west of north; J. D. Goldsmith, on March 13, 1852,  $1^{\circ} 40'$ ; Emanuel Kuhn, on April 13, 1852,  $1^{\circ} 44'$ . During the month of April of the same year a number recorded from  $1^{\circ} 30'$  to  $1^{\circ} 50'$ . I have run out a number of lines that Emanuel Kuhn had run, and find that having my compass properly adjusted to the meridian line, I generally can trace those lines pretty accurately, hence I conclude that the declination he recorded January 3, 1852, was about correct.

I see also, by comparing the records all through, that taking the records of various surveyors for a number of years the progression has been nearly four minutes, or about three and seven-eighths minutes per year, on an average for twenty-four years, and has now reached about  $3^{\circ} 15'$  west.

JOHN B. KAUFMAN, *Upper Strasburg, Oct. 31, 1876.*

1. The meridian line for Franklin county is located in a field on the alms. house farm, near the buildings, about one and three-quarter miles S. E. E. from the public square of Chambersburg.

2. It was established in December, 1851. The first observation having been made by E. Kuhn, Esq., then county surveyor, on the 24th December, 1851, and recorded January 3, 1852. Was established by J. Stilly, C. E.

3. It is marked by two monuments of hewn stone, dimensions above ground about six by eight inches in thickness, and about three feet high.

Each surmounted with an iron point painted white, (the stones being black.) They are placed about four hundred feet apart, and are sunk deeply in the ground, and firmly secured to prevent all possibility of disturbance or displacement.

4. The declination in 1876 as shown by the average of seven instruments is  $3^{\circ} 10'$  west. The change since the spring of 1852, is fully a degree and a half, or about  $3\ 75'$  per year. The average of fourteen instruments tested in 1852, gives  $1^{\circ} 39'$ , and six in 1864, gives  $2^{\circ} 11\frac{2}{3}'$ . [Here follows the averages for each year.] I have given the extremes of each year, showing a considerable diversity or discrepancy in the results of different instruments, evidently showing that many of them must have been seriously defective, or out of adjustment, caused, probably, by imperfect centering, eccentricity of sights, absence of spirit-levels, so that it is difficult to place the sights in a perpendicular position, dull centre pin, or perhaps by needle having partially lost its polarity, or at least greatly weakened. Then the diurnal variation may have affected some instruments to some extent. I gave the average results of each year, from the records in the commissioners' office, although it must be admitted that the average in some years has been unduly affected by the presence or absence of such as show extreme results, as in very few years have all the surveyors made records of their adjustments or observations. But taking a few of the best instruments that have been tested most frequently, it would appear that the average annual change during the first half of the period (from 1852 to 1864,) was about  $3\frac{1}{3}$  minutes, and for the last half (from 1864 to 1876,) it has been at the rate of about  $4\frac{1}{6}$  minutes per year, indicating a slight acceleration in the rate of change.

5. I am not aware that there are any trigonometrical lines established or marked in this county, at least I do not know of any, except the southern boundary line of our county, (Mason and Dixon's line;) but as I live in the northern part of the county, and never did much work in the southern tier of townships, I never had occasion to test any considerable portion of that line, but found the portion thereof that I did run to correspond with our meridian (making allowance for difference in locality) as near as I could judge, considering the distance from Chambersburg, as the part of line in question is some twenty-five or thirty miles from the poor house farm, in a south-westerly direction, consequently the needle there would vary less than at the meridian line.

6. Although the law of 1850, imperfectly as it has been observed by the majority of surveyors, has been productive of much greater uniformity in results than before the meridian line was established, so long as surveyors are satisfied and continue to work with old worn out compasses, graduated to whole degrees, sights bent, needle not reversing within a

whole degree, no vernier or levels, so long will the anticipated advantages be, to a great extent, frustrated and prove nugatory. Nothing short of the improved vernier compass, and well adjusted in all its parts, should be taken to the field at all, and better still would it be, were it required that all surveys be made with instruments capable of taking angles independently of the needle, as, for instance, the railroad compass, the surveyors' or engineers' transit, or the solar compass. Even then the business of the Land Surveyor would for a long time to come present difficulties in dealing with the errors and imperfections of the old surveys and lines extending in the older portions of the State over a period of more than a century and a half. I have often thought too that great advantages would be derived from a system of triangulation over the State, covering the several counties with a net-work of lines and angular points at convenient distances, the lines to be of moderate length, their direction and lengths accurately determined, the angular points plainly and permanently marked, so that all lines, or the most important lines of each of them, might be referred to such lines or points. The whole to be recorded in such a manner as to be easily accessible to all surveyors. A plan of this kind might be thought too expensive to be practicable, but when we consider the vast amounts annually expended in vexatious land suits, caused by disputed lines, and the reproach the profession of the Land Surveyor suffers thereby, it seems at least worthy of serious consideration. It would also perhaps require in a surveyor a higher degree of scientific knowledge than many now possess; but would that be a serious disadvantage? In the interest of the profession of my choice, and as a lover of peace and good will among neighbors and land-holders, I hail with unfeigned satisfaction the movement which you have inaugurated, and hope it may inure to benefit of surveyors and of the landholders of this Commonwealth.

GREENE—C. C. BROCK, C. S., *Waynesburg, Oct. 9, 1876.*

1. At Waynesburg.
2. Between 1850 and September 28, 1852. At which date J. S. McConnell made the first recorded adjustment, *vid* 45' west, on his instrument at that time.
3. Stones cut for the purpose, and set in other large stones, which are sunk in the ground below frost depth.
4. Present variation  $2^{\circ} 3'$  west. The needle seems to be moving west at about the rate of  $3' 15''$  annually.
5. The surveyors have, with one or two exceptions, come up to the requirements of the act of Assembly, consequently in the course of a few years more, the bearings of the lines in the county will have generally been taken with reference to the established meridian.

HUNTINGDON—HENRY WILSON, C. S., *Donation*, Nov. 27, 1876.

1. In the court house grounds, borough of Huntingdon.
2. In the fall of 1851, or early part of 1852, by John Reed and J. Simpson Africa.
3. By a cast-iron post at the south, and a stone at the north end. Both secured by masonry below the surface of the ground, and each having above the ground a vertical groove in the direction of the meridian.
6. In November, 1876, I re-traced a line about five miles west of the borough of Huntingdon, which had been carefully run and marked 19th April, 1860. The bearing at that date was north  $41\frac{3}{4}^{\circ}$  east. I found it, at this time, to be north  $42\frac{3}{4}^{\circ}$  east, a difference of one degree, equal to  $3\frac{3}{4}$  minutes per year. Surveys made in this county in 1794, I find require an allowance of about  $3^{\circ} 15'$  to run them now.

J. SIMPSON AFRICA, Nov. 1, 1876.

1, 2 and 3 described by Mr. Wilson, C. S. The length of the line is 214.5 feet. The stone marking the northern point in the line was broken off in 1863, when the court house and grounds were occupied as a rendezvous by the military.

4. Declination in April, 1852, by the most reliable instruments,  $2^{\circ} 16'$  west. An average of six observations made with a solar compass at different hours on the 19th and 21st days of August, 1874, gave a western declination of  $3^{\circ} 34'$ . Difference in 22 3 years  $1^{\circ} 18'$ , equal to 3 5 minutes per year.

5. On a line established for my own convenience, exempt from any local attraction, the progression in the declination of the needle from the 21st day of May, 1849, until the 29th day of October, 1874, a period of 25.4 years, was one degree and thirty-five minutes, equal to 3.74 minutes per year. Numerous tests of new lines I had run from 1848 to 1858, and re-traced, generally with the same instrument, in 1872 and 1874, gave an average annual progression of 3.65 minutes. On the 10th day of September, 1858, I ran a new line, about eight miles south-east of the borough of Huntingdon, for a distance exceeding a mile, and on the 23th day of October, 1874, 16.1 years afterward, I re-traced the line with the same instrument, and running in the same direction as in 1858, and found the declination to have increased one degree, equal to 3.73 minutes per year.

The method of obtaining the correct declination with instruments without verniers, used soon after the establishment of the county meridian, was to set the instrument on the southern point, with the needle precisely at zero, and make a mark in the line of sight at right angles from the northern point; measure the distance from this mark to the northern point, then, having the length of the line and this distance, the deflection from the true meridian was calculated in degrees and minutes.

JEFFERSON—JAMES CALDWELL, *Borough Engineer, Brookville, Oct. 20, 1876.*

1. It is located on the public grounds, at an elevation of 220 feet above Red Bank creek, and three squares north of the court house in the borough of Brookville.

2. It was established at the instance of the county commissioners, in accordance with the act of 1850, on the 4th day of April, A. D. 1851, and a standard measure placed in their office of 33 feet in length.

3. It is marked by two large stones set firmly in the ground, at about 330 feet apart, with centre mark on top of each.

4. The present declination, according to the last entry made in the book kept for that purpose in the office of the county commissioners, was made by myself on the 4th day of April, 1876, and is as follows:

Variation of compass two degrees and thirty minutes west, ( $2^{\circ} 30'$ .)

Variation of transit two degrees and forty-five minutes west, ( $2^{\circ} 45'$ .)

I have recorded the variation of my instruments regularly in the month of April each and every year since 1852. The variation at that time was one degree and twenty minutes ( $1^{\circ} 20'$ ) west of the established meridian line. I am the only man in this county who has followed up the requirements of the act of 1850. The first entry made in the book, was made by Robert Walker (by whom the line was established) on the day the line was marked upon the ground; and by the record, I see his compass varied one degree west of established line.

The declination or variation of the needle is still increasing to the west. If you desire to have it, I can give you the variation of the needle, as taken by me, in the month of April in each year since 1852.

Yearly increase since 1852, *i. e.* the average increase, two minutes fifty-five seconds, ( $0^{\circ} 2' 55''$ .)

5. In re-tracing of fixed and certain lines, and lines run by me in former years with the variation (as it then was) set off I find no difficulty in running now, (with the present variation set off,) so that the true bearing then entered in my field book is just the true bearing of to-day (1876) with the present variation.

As the declination or variation of the established meridian line increases, so does the variation of the land lines increase just the same. An experienced surveyor or engineer will always watch carefully the diurnal variation, if he wishes to follow the lines closely, for the sun has, in hot weather, an influence on the needle, if exposed to his rays any length of time, and will cause it to vary from ten to fifteen minutes in a few hours. I have proved it to be so.

6. Would it not be well, at the next meeting of the Legislature, to have a supplementary act to the act of 1850 passed, requiring land surveyors and civil engineers to use only such instruments as are constructed with a

vernier scale, so that the variation can be set off, and the instrument clamped firmly that it cannot move?

Many (would be) surveyors in this part of the country are using what are called plain instruments, without any vernier, and have to guess at the variation, unless it happens to be a whole, a half or a quarter degree. Some of them try their instruments on the meridian line once in two or three years, and some not at all. When they make a survey they always give the magnetic bearing, and are a source of annoyance to competent men, and one cause of vexatious litigation. I see that in Canada "so great is the distrust of needle instruments, that the Provincial Land surveyors are forbidden to use an instrument in their land surveys, unless it is capable of taking angles independently of the needle."

Incompetent men, and incompetent instruments, by some means, should be driven from the profession.

LEBANON—II. C. GRITTINGER, *Cornwall, Nov 4, 1876.*

1. Lebanon, Lebanon county, Pa.

2. April 7, 1851.

3. The south-east corner of base of court house was taken as southern terminus, and a large tree on Gravel Hill, about a mile distant, as northern terminus, with an intermediate point 200 feet from southern end. In 1864; owing to the removal of the tree, and the obstruction of the view by several buildings, the northern point was changed to a target attached to south end of Lebanon Paper Co.'s mill on Eighth street, about 400 yards distant from court house. In 1872, owing to obstruction caused by trees, a new meridian was established in the Independent District north of Lebanon, the northern terminus being a large marble monument in Mt. Lebanon cemetery, and the southern a marble post at west side of Main avenue to cemetery, a short distance from entrance.

4. The variation of the needle at the time of the establishment of a meridian in 1851, was  $3^{\circ} 30'$  west.

Since then the progression westward has been about 3 minutes and 20 seconds annually.

The variation on the same compass with which the meridian was established in 1851, being  $4^{\circ} 52'$  west in April, 1876.

LEBANON—MARTIN MEELY, C. S., *Ono Post Office, Oct. 20, 1876.*

1. In the borough of Lebanon—on the pavement 94 perches east of the court house, with a signal post one mile off.

2. April 6, 1874.

3. A marble stone marked W on the west side, and E on the east side, and a signal post a mile off.

4. Declination in April, 1851,  $3^{\circ} 30'$  west; in April, 1876,  $4^{\circ} 45'$ ; difference  $1^{\circ} 15'$ , equal to three mintes per annum.

LYCOMING—ROBERT H. FARIES, C. E., *Williamsport, Oct. 23, 1876.*

1. None.

2. None.

3. Not marked.

4. In 1857 a map of Williamsport was published, known as M'Minn's map, in which the latitude of the city is put down at  $41^{\circ} 19'$  north, and the longitude  $4\frac{1}{4}'$  west of Washington, or  $77^{\circ} 5' 45''$  west of Greenwich. This has generally been taken as the true latitude and longitude of Williamsport. Mr. M'Minn's character as a scientific man, being considered a sufficient guarantee of its correctness.

In a publication of the Smithsonian Institute, "I find that on the 28th of July, 1841, Alexander D. Bache (late Superintendent of the Coast Survey) was here for the purpose of making astronomical and magnetic observations—establishing his station "from the academy south-west by south 350 feet in the angle of a road." (The academy here meant, is the old Octagonal building near John B. Hall's residence, West Third street.) By a large number of observations made with different magnetic needles, he ascertained the latitude to be  $41^{\circ} 14' 3''$ —the  $3''$  being rejected in correction— $41^{\circ} 14'$  is now established as the true latitude of this city, taking the old academy as the base.

He also made observations, both astronomical and chronometrical, for ascertaining the true longitude, which resulted in fixing the longitude of the city at  $77^{\circ} 2'$  west of Greenwich, or  $1'$  west of Washington. The true difference in time, as ascertained chronometrically, between the Girard Observatory in Philadelphia, and the old Williamsport Academy, is seven minutes and twenty-eight seconds. The declination or variation of the needle July 28, 1841, as ascertained by Mr. Bache, was  $3^{\circ} 31' 2''$ . In 1862, as ascertained by Mr. C. A. Schott, of the Coast Survey, it was  $4^{\circ} 25.7'$ , being an annual increase of western declination of  $2.6'$ . If the same annual increase has continued up to this time, (1873,) then the variation of the magnetic needle at this date (1873) must be about  $4^{\circ} 54'$  west at Williamsport.

In July, 1841, Mr. Bache found, by actual observation, the dip of the needle to be, at this city,  $72^{\circ} 54.4'$ , and in August, 1862, Mr. Schott also, by actual observation, found it to be  $72^{\circ} 51'$ , a mean annual decrease of dip from 1841 to 1862, of sixteen one-hundredths of a minute."

(The above from Josiah Emery, Esqr., in Blair and M'Math's history of Williamsport.)

In addition to the foregoing, I would state that about the year 1874, a party was sent to this locality by Prof. Hilgard, of the Coast Survey, to make observations, &c., who established a true meridian in an open field near the Herdic House, but left no permanent monuments upon the meridian so established.

On the 5th of September, 1875, John B. Otto (present city surveyor) established a true meridian in the grounds surrounding his father's residence, corner of Lycoming and Centre streets, Fourth ward, finding the variations to be  $4^{\circ} 46'$  west, verifying the observations of Mr. Schott in 1862, of an annual increase of western declination of about  $2.6'$ , and agreeing with Mr. Emery's calculation within  $8'$ , so that the variation of the needle at this place may be safely put down at  $4^{\circ} 55'$  west declination Sept. 1876, with an annual increase westward of  $2.6'$  per annum.

5. The law of 1850 has never been complied with in this county, and there are no permanent monuments, to my knowledge, nor has there ever been any reports of variation of the needle kept by the commissioners, though the practical utility of such an observance of the law is unquestioned, and the benefits to be derived therefrom admitted by all.

MERRICK REEDER, *Newberry*, Oct. 19, 1876.

2. No meridian line has been established in Lycoming county, or standard measure for chains.

4. I find no records in the county. In tracing lines that were run in 1792-3, there is a variation of from  $2\frac{1}{2}$  to 3 degrees, and sometimes even greater.

5. In establishing corners where all the original monuments have been removed, we find it very difficult. If two of the adjacent monuments are on the ground, we can get the true bearings of the survey, and from that and the measurement establish the others.

6. The original surveys of this county, in many instances, have been made on paper, without running the lines. The deputy surveyor would run around a large tract of country and draw the inside lines on paper, and call the inside corners posts.

When the re-surveys have been made, as a consequence the corners of inside tracts do not come together; I find some as far as thirty or forty rods apart, while the official copy shows that they should come together; these inaccuracies have caused a great deal of litigation.

MERCER—R. A. M'KIM, C. S., *Mercer*, Oct. 12, 1876.

1. In park east of court house.
2. One thousand eight hundred and fifty-three.
3. By monuments of stone masonry.
4. First record in docket made December, 1853, declination of needle  $55'$  west.

MIFFLIN—JOHN SWARTZELL, *Siglerville, Oct. 24, 1876.*

1. The meridian line is located on the Poor-House farm, about one-fourth of a mile east of Lewistown.

2. Said meridian line, after several observations at various dates, was finally established on the 5th day of March, 1851.

3. It is marked by two locust posts, said to be set into the ground to the depth of seven feet; one at each end of the line, at the distance of 592 feet 3 inches apart, and six feet above the surface. Tops sharpened and painted white.

4. The present declination of the needle from the meridian line is not known. The post at the south end of the line commenced to lean to the north-west about 1868, and continued to do so more each year, and is now entirely gone.

Declination in April, 1851,  $1^{\circ} 55'$  W.; in April, 1871,  $3^{\circ} 5'$ ; average annual progression  $3\frac{1}{2}'$ .

5. I have found the adjusted compass very convenient in re-tracing the lines of those large batches of mountain lands surveyed in 1793 and 1794. In nearly every case I could follow those lines by running a half degree to the left. I have also found it very convenient in re-surveying new lines that were surveyed with the adjusted compass.

6. A meridian line, if strictly adhered to by the surveyors of each county, would certainly soon be found a great convenience to those surveyors; and I would be highly pleased if some stringent law would be enacted, *compelling* the commissioners of each county to establish, on a permanent foundation, with imperishable materials and proper marks, a meridian line for each county in the State; and that the surveyors be compelled to take notice of the same, and make all their surveys accordingly. Many of the adjustments in this county amounted to nothing—all their surveys were made to the old magnetic bearing.

DAVID HOUGH, *Lewistown, Oct. 23, 1876.*

[The answers to the 1st, 2d, 3d and 4th questions are similar to those given above by Mr. Swartzell.]

5. I have found that in the last twenty (20) years the variation has steadily increased about three minutes ( $3'$ ) to the right or east.

6. I think it is too late to begin to re-trace our lines in Pennsylvania by compasses adjusted to a true meridian, and give the courses or bearings accordingly, as all of our surveys were made or run by a magnetic meridian; and in many surveys I find the variation to differ from  $\frac{1}{4}^{\circ}$  to  $\frac{1}{2}^{\circ}$  on going around them, therefore you must change; and as to chaining, it is or has been worse done than the compass work.

And the only way to locate those old surveys, is to find their courses and distances by their work on the ground. It is truly right and proper to have a true meridian line established in each county, and compel each and every surveyor in the county to meet on a certain day in April of each year, and correct their compasses in the presence of each other, and all the surveyors to sign each certificate, and by that means we would get a much truer adjustment; also, with the chain, have the corrections done on the same day and in the presence of each other.

WM. J. SWIGART, C. S., *Lewistown, Oct. 19, 1876.*

1. On adjoining fields of George M'Kee and C. Swigart, in west end of Granville township.

2. September, 1875.

3. By wooden posts set in the ground at each terminus of the line.

4. Three degrees and thirty-six minutes west.

6. The meridian, marked some years ago, on the poor house farm, near Lewistown, has become destroyed and has been out of use since before my election. If there has been a book kept in the commissioners' office, I cannot find it, and the present clerk knows nothing of it. The commissioners have never authorized me, or any one, to re-establish the marks. The one I report in Granville township, I put up last fall merely for my own accommodation, and not by authority of the commissioners.

MONTOUR—GEO. W. WEST, *Danville, Oct. 24, 1876.*

4. I very much regret that the commissioners of Montour county have not complied with the act of the 26th of April, 1850. It prevent us from answering your question and from much satisfactory knowledge of the declination of the needle.

5. I can say nothing on this worth noting.

6. I think that meridians should be established accurately in each county by properly qualified parties having the requisite instruments.

PERRY—JAS. B. HACKETT, *New Bloomfield, Oct. 18, 1876.*

1. The commissioners of Perry county have never established a true meridian line.

6. The surveys in Perry county have all been made and returned agreeably to the magnetic bearing at the time the survey was made, and we have no way of ascertaining the declination or variation now, except from marks found on the ground and our own experience and knowledge as practical surveyors.

The most of our mountain land was surveyed from 1793 to 1800, after the fifty shilling act of 1793, April 3, went into operation. On these surveys

I now find a variation of from  $3\frac{1}{4}$  to  $3\frac{1}{2}$  degrees westward from what they ran at that time.

On surveys made from 1810 to 1820 there is now fully  $2\frac{3}{4}$  degrees variation.

I have been a practical surveyor since 1842—34 years, and I find in re-tracing my old surveys that the needle has travelled fully  $1\frac{1}{2}$  degrees to the west in that time, or averaging about one degree in every 20 years.

SOMERSET—JONATHAN H. FRITZ, C. S., *Somerset*, Nov. 3, 1876.

1. At the court house, in Somerset borough.
2. Established in October, 1855, by the clerk of county commissioners; re-established May 4, 1875, by J. H. Fritz, E. D. Yutzy and R. J. Batzer.
3. Line is 117 feet in length, and is marked at each end by a cast-iron post, the base of which extends  $3\frac{1}{2}$  feet below the surface of the ground, and is surrounded with stones.
4. The variation in October, 1855, was one degree west, and on May 4, 1875, when the line was re-established, was  $2^{\circ} 45'$ , and on November 1, 1876,  $2^{\circ} 55'$ .
6. I consider the law defective in the collection of fines. It should be the duty of the county surveyors to see that the law is duly enforced, and have the power to prosecute any surveyor who neglects or refuses to comply with the provisions of the law, with a penalty of \$100 if he (county surveyor) neglects to enforce the law.

SUSQUEHANNA—JAMES W. CHAPMAN, C. S., *Montrose*, Oct. 23, 1876.

Your circular of the 2d inst., relative to meridian lines, was received.

I have to inform you that the act of 1850, requiring the county commissioners to procure the establishment of a meridian line and a standard measure for chains, was totally neglected in this county, and there is, therefore, no records from which to answer your inquiries. If I am correctly informed, several of the neighboring counties likewise failed to comply with the law, and surveyors are, of course, unable to meet their part of the requirement.

If you find it has been disregarded by any considerable number of counties, would it not be well to suggest to the Legislature, at its coming session, to pass a supplement to the law, more imperative in its provisions, to accomplish the object. My own observation, concurred in by other surveyors with whom I have consulted, makes it apparent that the declination of the needle has been increasing more rapidly for some years past than formerly, and from tracing the New York and Pennsylvania State line in several places within in a few years, (which is said to have been run at right angles with the true meridian,) as well as from other sources upon

which to rely, I am of the opinion that the present variation here is about  $6\frac{1}{4}^{\circ}$  west, though some other surveyors think it is rather more. It may be  $6\frac{1}{2}^{\circ}$  by some compasses, as mine apparently indicates a trifle less than others with which it has been compared.

I have been contemplating for some time getting up an apparatus for taking an observation of the polar star at the proper time, as it is several years since I have done so, and if I do I will inform you of the result.

TIoga COUNTY—HON. H. W. WILLIAMS, P. J., *Wellsboro'*, Oct. 16, 1876.

Your circular of date 13th, relating to meridian lines, &c., is received. Upon inquiry I find that none has been established in this county. I am, therefore, unable to give the information desired. I will, however, endeavor to see our county commissioners and see that such a line is established at an early date, and the requirements of the act of 1850 brought to the attention of our board and of the county surveyor.

TIoga—DAVID HEISE, *Wellsboro'*, Oct. 17, 1876.

1. No meridian line ever established in this county.

6. No meridian line having been established in this county, I will make here a few remarks. I have never made any particular observations of the north star to ascertain the variation of the magnetic needle. For my own use, and to ascertain the increasing variation of the needle, I established on my premises, in October, 1858, a north and south line as the compass then pointed it out. By taking an observation with the same compass and needle now, I find that the west variation has increased since that time  $1^{\circ} 21'$ .

For several years after 1858, I could perceive no increase in the variation till in April, 1865, when I found that a variation of one-eighth of a degree had taken place, since that time the west variation has been increasing, though not at a regular rate. The surveys of the Lottery warrants in this county, along the principal streams, were made in 1786 and 1787. Most of the other surveys from 1792 to 1794. The lines of these surveys now vary from three to four degrees. On a stone placed in the line dividing the States of Pennsylvania and New York, at the point where Troup's creek crosses said line, I found the following inscription: "109 miles 36 chains, variation  $1^{\circ} 52'$  west, 1787." By running a line in October, 1864, a short distance north of the State line, in Lindley township, N. Y., for a distance of more than four miles, I made the bearing of the State line, N.  $85^{\circ} 49'$  W. by the compass. The variation since 1864, according to my observations, is  $1^{\circ} 15'$ , so that the present bearing of the State line would be N.  $84^{\circ} 34'$  W. by the magnetic needle.

UNION—CONRAD SHECKLER, C. S., *Forest Hill*, Oct. 30, 1876.

1. College grounds, Lewisburg, Union county, Pa.

2. January, A. D. 1869.

3. Two marble monuments.

4. Present declination,  $4^{\circ} 35'$  west; progression since establishment,  $24'$ .

6. It is to be regretted that in locating lines or corners of tracts of land that bearings were not taken to trees or other prominent objects. Corners get lost, witness trees are carelessly marked, frequently pointing in a different direction from the corner, creating a great deal of trouble and uncertainty.

R. F. BROWN, *Lewisburg, Oct. 30, 1876.*

1. On college campus, or grounds of the University at Lewisburg.

2. In January, A. D. 1869.

3. With two marble monuments.

4. October 26, A. D. 1876,  $4^{\circ} 35'$ ; in January, 1869,  $4^{\circ} 11'$ ; difference,  $24'$  in nearly eight years.

5. Lines run in 1769, and again run in 1869, differed  $\frac{1}{2}^{\circ}$ , (strong with common compass;) at present,  $1^{\circ}$ . Lines run in 1793 and 1794, and again in 1869, differed  $2\frac{1}{2}^{\circ}$ , and at present differ  $3^{\circ}$ .

WASHINGTON—ALLEN J. WHITE, C. S., *Pike Run, Dec. 8, 1876.*

1. In the college campus, in Washington.

2. In 1852.

3. By stones set as monuments.

4. About  $2^{\circ}$  west of north.

There seems to be considerable difference in compasses. At the date of establishment some are recorded as pointing due north; others varying from  $4\frac{1}{2}'$  to  $35'$  west.

WAYNE—LEWIS S. COLLINS, *Honesdale, Oct. 25, 1876.*

1. Is located in the yard or park east of the public buildings, at the county seat, in Honesdale.

2. Established in 1855.

3. Is marked by rectangular cut-stone posts, set in the ground five feet deep, at each end of the meridian. Upon the top of each post is cut an X, showing the exact position of the meridian line.

4. Present declination, about  $6^{\circ} 45'$  west.

In regard to the progression since establishment of the line, see enclosed table of the declination of the compass of nineteen different surveyors from the Wayne county meridian, as they have recorded them in the book kept by the county commissioners. I have copied the record from 1855 to 1866, inclusive. It would appear from this record that either the observations were very inaccurately made or there is great difference in the declination indicated by the different compasses. In some instances the surveyor has noted that his compass was subject to local attraction, caused by metals

used in the construction of the public buildings near by ; in others that his instrument had recently been repaired, the needle re-magnetized, &c. After 1866 the law requiring the annual adjustment of compasses seems to have been somewhat neglected, and the record is not so full. In the table is given the declination for 1873, 1875 and 1876, as recorded by surveyors who had also adjusted their compasses during the ten years from 1855 to 1866. Many of these compasses were plain without a vernier, and the amount of declination, less than half a degree, was necessarily estimated. The stones marking the extremities of the meridian line being set in the ground, which is here a sandy loam, are liable to be thrown out of position by the action of frost or accidental concussions. The two stones marking the standard for two pole chains have been moved in some way, so that the distance between them is now by a Chesterman's steel tape, one and one-half inches short. One of these stones is also the stone marking the south extremity of the meridian line. The new court house, now in process of erection, when completed, will be directly in the line of sight from one end to the other of the present meridian line, so that hereafter the adjustment of compasses on that line will be impracticable. There have been compasses adjusted from 1866 to 1876 by other surveyors than those noticed in the enclosed table, but as their record does not extend back to the establishment of the meridian I have not given them.

5. In retracing old lines we find the change of declination from former surveys to be from  $3^{\circ}$  to  $4^{\circ}$ . In many instances there has been a re-survey or allotment made, and the surveyor at that time changed the original to the then magnetic bearing. In these cases we find the change now about  $3\frac{1}{2}^{\circ}$ . Where the original bearing has been retained we find the change sometimes as great as  $4^{\circ}$ .

[NOTE.—The declination in 1855, as ascertained by an average of the tests of fifteen instruments, was  $5^{\circ} 29'$  west, and in 1876, as given above by Mr. Collins,  $6^{\circ} 45'$ , showing an annual progression of  $3.6'$  per year. The various tests made during the intervening years show such diverse results that it seems to be evident that the line is affected by local attraction.—*Dep. Sec'y.*]

WESTMORELAND—CYRUS T. LONG, C. S., *Greensburg, Oct. 21, 1876.*

1. Located in the academy ground at the north end of borough of Greensburg.

2. Established, March 27, 1852, but no use appears to have been made of it by surveyors until April 10, 1854.

3. Marked stone columns. Each stone having a niche cut into it and made black as if lacquered, and so arranged that a party testing an instrument will have to place it midway between the stones and in line with the marks on the same.

4. The variation as recorded in our county records are about as follows :  
Average of observations made in 1854, one degree west ; in 1876, two degrees and thirty minutes.

Hon. Samuel L. Carpenter, October 12, 1876, reports the same results as those given by Mr. Long.

WYOMING—THOS. A. MILLER, C. S., *Tunkhannock*, Oct. 5, 1876.

1. I would state that the provisions of the above law have not been complied with in this county, therefore there is no meridian established in the same.

6. I find by actual practice in tracing old lines that since the year 1800 the variation of the needle has been at the rate of three minutes each year, or at the rate of one degree in twenty years, up to the present time.

YORK—WILLIAM L. KEECH, C. S., *York*, Dec. 9, 1876.

1. At poor house.

2. January, 1875.

3. Four granite stones, steel pointed centres, 100, 50 and 33 feet apart.

4. Present declination of needle,  $4^{\circ} 54'$  west—six minutes increase.

6. The meridian line and standard measure was established about one year ago, consequently cannot say much more than that the surveyors have pretty generally registered.

NEW JERSEY—HON. JOHN CLEMENT, *Haddonfield*, Oct. 11, 1876.

1. Mount Holly, Burlington county, May's Landing, Atlantic county, Woodbury, Gloucester county, Bridgeton, Cumberland county, Salem, Salem county, Cape May Court House, Cape May county.

2. By act of the Legislature of New Jersey, February 4, 1863—supplement, March 24, 1864.

3. By act of 1863, there was to be a plate, fixed on a stone post—the plate to be marked with the true meridian—the supplement of 1864, provided for two stone posts at least 100 feet apart in the line of the true meridian.

4. The following tests were made and reported by the members of the Surveyors' association of West New Jersey :

MOUNT HOLLY.—September 1, 1866, average of ten tests by six instruments, four at 12 o'clock noon and six at 1 o'clock

P. M., cloudy with some mist, thermometer near  $90^{\circ}$ ...  $5^{\circ} 36'$  west.

August 9, 1870, average of tests made by sixteen instruments, between 2 and 4 o'clock P. M., thermometer about

$90^{\circ}$ .....  $6^{\circ} 00'$  west.

(Difference,  $24'$ , equal to  $6'$  per year.)

|                                                                                                                                                                                                                                                      |                                    |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|
| August 12, 1873, average of tests made by eleven instruments, at 12 o'clock M., thermometer $85^{\circ}$ . . . . .                                                                                                                                   | $6^{\circ} 11'$ west:              |

| (Progression in seven years, $30'$ , equal to $4\frac{1}{2}'$ per year.)                                                                                                                                                                             |                                    |
| BRIDGETON.—August 13, 1872, average of tests made by eleven instruments, at 12 o'clock M., thermometer $95^{\circ}$ . . . . .                                                                                                                        | $4^{\circ} 31'$ .                  |
| MAY'S LANDING.—August 10, 1875, average of tests made by thirteen instruments, at 12 o'clock M., thermometer $80^{\circ}$ ..                                                                                                                         | <u><math>5^{\circ} 21'</math>.</u> |

5. Practical surveyors differ in this region in regard to the amount of variation to be allowed in running old boundaries. Some allow  $3'$  to the year, some  $3\frac{1}{2}'$  to the year from 1800 A. D. The vague and doubtful descriptions, as given in the original returns to surveys in West New Jersey, have been the cause of much trouble and litigation.

6. No settled rule can be adopted. Bad instruments, careless surveyors and difference in temperature may be considered as the principal causes.

My own experience is that  $3'$  per year is the nearest to the true variation.

The late date at which many of the replies to the circular was received prevented the preparation of some additional matter on the subject of magnetic declination that was intended to be embodied in this report.

All of these observations contain a small amount of error, caused by the diurnal and seasonal changes, but as they extend over a number of years these aberrations do not materially affect the results obtained. A much more serious error is attributable to imperfections of instruments.

*True meridian lines* should be located so as to be exempt from attraction caused by the proximity to gutter spouts, lightning rods, iron used in fences or buildings, gas or water pipes, &c. After careful planetary observations have been made, and verified by repeated trials, the lines should be accurately marked with pillars of durable material, sunk so far below the surface of the ground as to be immovable by frost or concussions. No two in the Commonwealth have been marked alike, and it is questionable if all are correct.

*Surveyors' instruments* should be correctly graduated; have the centre-pin sharp and precisely in the centre of the graduated circle. The needle should be perfectly straight and kept well magnetized. All metallic substances, such as pocket-knives, keys, steel watch-chains, or buttons with an iron body, should be kept away from the instrument when the bearing of a line is taken.

The suggestion made by Judge Hall, of Bedford, that the law of 1850 might be so modified as to allow the magnetic bearing of lines to be given,

and require the surveyor to note on his draft the amount of the declination of the needle from the true meridian, is a good one, and is worthy the consideration of the Legislature.

The members of the "Association of Practical Surveyors of West New Jersey" meet at least annually, at one of the county towns in their district, and in the presence of each other test their instruments on the meridian, noting the hour at which the tests are made, the state of the thermometer and condition of the atmosphere. Greater uniformity of results is thus obtained than under our system, where each surveyor consults his own convenience as to the time at which he will test his instrument.

STATEMENT showing the number of certificates to the State Treasurer, issued from December 1, 1875, to November 30, 1876, both days included, with the amount of purchase money and fees for warrants, patents, &c.; also, copying fees received and paid during the same period.

RESUME OF BUSINESS OF THE DEPARTMENT FOR THE YEAR  
ENDING NOVEMBER 30, 1876.

LETTERS RECEIVED AND ANSWERED.

- 4,222 relative to land office business.
- 945 relative to industrial statistics.
- 154 relative to railroads and assessments.

REPORTS, BLANKS AND CIRCULARS FORWARDED.

- 1,200 relative to land office business.
- 12,500 relative to industrial statistics.\*
- 2,300 relative to railroads and assessments.

LAND OFFICE.

- 1,755 copies of original papers certified and issued under the seal of the Department.
- 2,811 searches for warrants and surveys, required for patenting, copying and connections, and re-filing the same.
- 1,818 entries in fee book, transcribing the same quarterly for settlement with the Auditor General.
- 4 quarterly returns to Auditor General.
- 93 patents written and recorded, embracing 15,559 acres of land.
- 93 patents indexed.
- 85 tickets issued for patenting.
- 49 tickets issued for warrants.
- 3 tickets issued for liens paid.
- 7 tickets issued for excess.

---

\* This does not include about 1,500 copies of the Report of Industrial Statistics delivered in person to "Centennial" visitors and others.

- 3 warrants to accept surveys issued.
- 3 warrants to accept surveys, registered, numbered and filed.
- 49 new warrants written, registered, numbered and filed.
- 368 surveys copied and certified under the act of 15th February, 1833,  
compared and entered in books of such surveys.
- 49 new warrants issued and directed to county surveyors for execution.
- 49 new warrants recorded, indexed and filed.
- 316 entries on single warrants of the time of patenting.
- 316 endorsements on surveys of the time of patenting.
- 144 calculations made of sums due.
- 144 certificates of sums due directed to State Treasurer.
- 144 treasurers' receipts entered and delivered to the Auditor General.
- 12 monthly statements delivered to the Auditor General.
- 93 entries in warrant registers of the time of patenting.
- 144 vouchers written and entered in fee book.
- 144 vouchers numbered and filed.
- 57 new surveys from county surveyors, calculated and compared with  
warrants.
- 57 new surveys entered in surveyors' list of returns, numbered and filed.
- 62 certificates of liquidation of liens made out and forwarded to the  
prothonotaries of the several counties, under the act of the 4th  
day of April, 1868.
- 62 satisfactions of liens entered on land-lien dockets.
- 57 new surveys noted in warrant register.
- 20 caveats entered, recorded on caveat book and filed.
- 14 citations issued and noted on caveat book.
- 12 new surveys containing an excess of land calculated, compared with  
warrant and placed in excess file.
- 19 new surveys calculated, compared with the warrants and returned  
to county surveyors for correction.

# APPENDIX.

---

## BOARD OF PROPERTY.

A Board of Property, consisting of the Attorney General, Secretary of the Commonwealth and Secretary of Internal Affairs, is authorized by law. "Their powers are to hear and determine in all cases of controversy on caveats, in all matters of difficulty or irregularity, touching escheats, warrants on escheats, warrants to agree, rights of pre-emptions, promises, imperfect titles, or otherwise, which heretofore have, or hereafter may rise, in transacting the business of the said Land Office."

The present Board consists of:

GEORGE LEAR, *Attorney General.*

M. S. QUAY, *Secretary of the Commonwealth.*

WILLIAM M'CANDLESS, *Secretary of Internal Affairs.*

*Clerk of the Board,* J. SIMPSON AFRICA.

Stated meetings of the Board will be held on the third Wednesday of each alternate month of the year 1877, to wit: January 17th, March 21st, May 16th, July 18th, September 19th and November 21st. All communications for the consideration of the Board should be addressed to the Secretary of Internal Affairs.

No particular form of caveat is required, but the application, survey or other office right against which it is entered, together with the reasons for filing the same, should be distinctly stated. After the caveat has been entered, if not more than two years have elapsed before proceeding thereon, either party may apply for a citation to bring the matter in controversy before the Board, and after citation issues must give the opposing party thirty days' notice of the time fixed for hearing the case; and either desiring to take depositions to be read in evidence, must give the other at least ten days' notice of the time and place and before whom they are to be taken.

All other matters, within the powers of the Board to hear and determine, should be brought before it by petition.

---

## WARRANTS AND SURVEYS.

A warrant or order of survey authorizes only the survey of vacant lands, for they alone belong to the Commonwealth to grant. But whether the lands

applied for are vacant or not, the land officers do not undertake to examine, and in most instances do not possess the means of ascertaining. Of this the applicant must judge for himself. If he knows them to be appropriated by prior right, it is against conscience to take out a warrant for them, or to have them surveyed as vacant. But he may assert the invalidity of a former grant and insist on a survey. In that case the deputy surveyor ought, if it be known to him, to note it in his books and return of survey.

RETURNS OF SURVEYS.—Having finished the survey and plotted it, the surveyor ought to return it to the office of the Secretary of Internal Affairs. This is an important part of his duty. Many regulations and laws have from time to time required it, and from its omission frequent disputes have occurred. The deputy surveyor, however, is not obliged to return the survey until his fees and expenses are paid ; and if the failure to return is occasioned by the neglect or refusal of the party to defray them, any loss thereby sustained is imputable to him and not to the officer. The regulations of the Proprietaries and the acts of Assembly concur in directing the return to be made on paying for the survey. \* \* \* If the party pays or tenders the fees, it is the duty of the surveyor to return the survey in a convenient time, and the neglect or fraud of the surveyor will not affect his rights. But it lies on the party to show that the want of the return was not occasioned by any default or neglect of his own ; and if there is nothing to show that the surveying fees were paid, the inference is that they were not paid. The deputy being a sworn officer, is, *prima facie*, presumed to have done his duty.

---

#### PATENTS.

The patent is a deed from the Commonwealth, under its great seal, conveying to the grantee all its right in the land, describing it by metes and bounds, and passes, as respects the Commonwealth, the complete legal title, all the preparatory measures of warrant, application, survey and acceptance being merged in the patent. As to third persons, it is *prima facie* evidence that all the previous requisites had been complied with. Before it issues, the purchase money due [and the patent fee] must always be paid ; and the land is henceforth discharged from the lien which till then existed. Generally, the grantee is concluded by the lines and boundaries described in the patent, though perhaps in a special case there might be an exception.

Third persons claiming by warrant, application, settlement or otherwise, may show that the patent was wrongfully issued to the patentee, or rather that he is trustee for him who has the right ; the material consideration being not who has the patent, but to whom it ought to have been granted. For

the land officers, in issuing the patent, act merely in a ministerial capacity, and cannot change the rules of law or rights of parties. And even though he who has the patent sell to a *bona fide* purchaser without notice, the vendee is in no better situation. His claim under the patent may be contested by one having a better right by settlement, warrant or location. These titles are not equities within the ordinary rule of being unavailing against a purchaser of the legal title. A patent founded on a fraudulent survey, or obtained by misrepresentation and deceit, is void against third persons affected by it.

The patent, however, has always been received in evidence in the first instance, to show that the legal title was out of the Commonwealth. The question whether it is good is a subsequent one.—SERGEANT.

---

The following regulations relative to issuing patents are published for the information and guidance of owners of unpatented lands :

I. The patent must issue to the actual owner of the land or party holding title under the warrantee, or to the executors, trustees, or heirs and legal representatives of the person in whom title was vested at death, or to the guardians of minor children of the deceased.

II. Warrantees who remain the owners of the land warranted and surveyed to them, can obtain patents in their own names, (if no caveat remains undetermined) without furnishing any brief or statement of title, upon payment of back purchase money, interest and fees.

III. Executors, trustees and guardians representing the warrantee, or his heirs, who apply for patents, should produce evidence of their appointment as such.

IV. When the land has passed out of the ownership of the original warrantee, or party who took out the office right, the applicant for patent will be required to furnish evidence of ownership.

V. The present owner of a part of a tract of land surveyed in pursuance of any given warrant, desiring to have a patent in his own name, can obtain it by having the county surveyor make return of survey of such part. In making the survey, the county surveyor should, besides giving the courses and distances and quantity of acres in the particular part, indicate the whole of the original tract by dotted lines. The applicant will only be required to pay his proportion of the whole amount due on the tract, with fees. Evidence of ownership to accompany application.

VI. When an unpatented original tract has been sold and sub-divided, the several present owners may unite in an application for patent and statement of title, and upon payment of amount due, with patent and other fees, a patent will issue to them, the said applicants, their heirs and assigns,

according to their respective rights and interests, without setting forth the particular interest of each.

VII. In cases where it is difficult to submit the evidence of title required by this office in order to obtain a patent, any one or more of the owners of an unpatented tract can, through this Department, discharge the lien against said tract by the payment of the purchase money, interest and fees shown to be due by the land lien docket, and the interest since accrued, and a patent can at any time afterwards be issued to those entitled to it upon proof of ownership.

VIII. The accounts in the lien docket are calculated to June 1, 1868. If to the amount due, as shown in its proper column, there be added the interest accruing from June 1, 1868, to the date of forwarding the docket to the prothonotary, at the rate given in the column of rate per cent. of interest, and on this sum, interest be calculated at the rate of six per cent. from the time of forwarding the docket until the date of the application for patent, it will give the amount required to procure a patent. (See 2d sec. of the act of the 20th of May, 1864.) But interest is not charged on patent or other fees. (See act of the 5th of May, 1871.)

---

A statement of the amount due on any particular tract or tracts, or any other information in relation thereto, will be promptly furnished, on application to this office.

Persons sending money to the Department of Internal Affairs for payment of arrears on unpatented lands and for records, &c., should send by registered letter or express. Drafts, checks or post office money orders must be made payable to the order of the Secretary of Internal Affairs.

#### MISCELLANEOUS.

An endorsement, say for example, "Returned, &c., February 22, 1815," which is frequently found on copies of warrants and surveys, does not mean the date at which the return of survey was received at this office, but the date at which the Surveyor General made a return of the tract to the Secretary of the Land Office for patenting. And when such endorsement is found on the back of a copy of a warrant or survey, even after the date at which the office of the Secretary of the Land Office was discontinued, it is an evidence in perhaps more than ninety-nine cases out of one hundred, that the tract is patented. Some exceptions have been found. Why the custom of marking the warrants and surveys thus, when a tract was patented, after the office of the Secretary of the Land Office was abolished on the 17th of April, 1843, is not apparent. This custom was discontinued on the 1st of January, 1868, and the endorsement, "Patented to —————, 18—," substituted.

A mistaken idea, prevalent with many people not familiar with the Land Office, is that the Department has connected drafts showing the location of every tract of land surveyed in the several counties, and that therefore whatever of vacant land there may be in the State, can be readily found out at this office, and that information can, without difficulty, be given as to the adjoining surveys of any named tract, without advising the Department of the names and dates of the warrants upon which such surveys were made. Had the lands of the Commonwealth been first surveyed, and afterwards sold, this idea would have been correct, but the very reverse was the fact, for the lands were sold and warrants for subsequent surveys issued. And because of this policy the Department has only single and unconnected copies of the surveys. Unless a given survey calls for warrantee adjoiners, it would be a work altogether out of proportion to the fees allowed, to undertake to search out all the warrants and surveys, perhaps for a whole county, in order to find the adjoining tracts, or search for a supposed vacant piece of land ; but the task is comparatively easy when the party seeking the information learns, as he can more readily do from the county surveyor, or persons in the neighborhood, the names of all the surrounding warrantees and dates of warrants, and communicates that data to this office.

It will be observed, from the foregoing, that in communicating with the Department, it is of the first importance to give the name of the warrantee and date of warrant of the survey or patent about which inquiry is made ; but when the date of warrant cannot be given, the party asking for official copies or information should give quantity of acres, location and any other data in his possession that will aid in searching for the tract.

---

Frequently applications for warrants for land, made out in due form, are sent to the office unaccompanied by the purchase money and warrant fee. Of course the warrants cannot issue until the proper amount of money is paid into the State Treasury, and the applications thus made gain no priority over others that might be made for the same lands, until all the requirements of law are complied with.

The law does not contemplate that credit should be given on account of fees for searches and official copies, and therefore, to save correspondence and insure more speedy attention, the proper amount of fees should be sent with each order. If too much is forwarded, the surplus will be promptly returned with the official papers asked for.

*DATES at which the county land lien dockets prepared under the act of the 20th of May, 1864, and the supplement of the 4th of April, 1868, were forwarded to the prothonotaries of the several counties.*

## INSTRUCTIONS TO COUNTY SURVEYORS.

## I. EXECUTION OF WARRANTS.

1. You shall faithfully execute every warrant that shall be directed to you from this Department, to the best of your skill, knowledge and understanding, *according to the express words* and order of such warrant, and not otherwise.\*

2. You shall not make use of any chain-carriers but such as are of good character, who shall take a solemn oath (which you are authorized by law to administer) justly and exactly to execute their trust, without favor, partiality or affection.†

3. You will, on no pretence, execute new warrants upon lands heretofore surveyed on old warrants or orders; but report, as nearly as may be, the circumstances relating to the same. And before you make return of any lands by you surveyed on new warrants, endeavor to be satisfied that no warrant of an earlier date has been issued for the same land; and on your return certify whether the lands have been improved, and for how many years.‡

4. You must, by no means, execute warrants on any other land than that which they particularly describe; and in order that your returns of survey may appear to be so executed, it will be necessary for you to be particularly attentive to the *adjoiners mentioned in the warrant*; and where there has been any change in them between the issuing and executing of the warrant, it must be noted in your return of survey.§

5. You will be particularly careful in executing warrants granted after the 1st day June, 1814, and not founded on actual settlement, not to interfere with the rights of settlers, and in all cases where an actual resident settlement is included, note on your return whether it was commenced prior or subsequent to the 28th day of March, 1814.||

6. You shall not make return of any survey, but such as has actually been made on the ground; and you shall take care that all outlines and boundaries shall be fairly and visibly marked before you quit the field.\*\*

## II. RETURN OF SURVEYS.

7. You are to make a separate return of survey on each warrant or order issued from this Department within six months after the receipt thereof.††

---

\* ¶ 1 of instructions of the Commissioners of Property to Isaac Taylor, Proprietary's surveyor for the county of Chester, signed by said Taylor on the 28th of eleventh month, 1701.

† ¶ 6 of same.

‡ Adopted May 1, 1790.

§ Adopted in pursuance of an order of the Board of Property, made August 1, 1811.

|| Adopted in June, 1814.

\*\* ¶ 7 of the instructions issued in 1701.

†† ¶ 4 of instructions issued in 1765.

8. Each return of survey shall conform with the following requirements, to wit :

I. The paper or parchment used to be of the dimensions of at least eight by twelve inches.

II. It must contain a protracted figure of the land exactly performed, with the field works annexed.\*

III. All streams of water, roads, railroads, canals, township or county lines intersecting or crossing the lines of the survey must be distinctly and visibly marked on the draft at the very place of intersection or crossing, and the distance from the corners expressed in figures on the lines crossed.†

IV. The lines of so much of the adjacent surveys as may serve to show their connection with the survey returned to be represented on the draft by dotted lines.‡

V. When a survey is bounded by a creek or river, the bearings and distances of the several meanderings must be given.§

VI. Note, whenever they can be obtained, the *warrantee* names of adjoining tracts, as well as the names of the present owners thereof.

VII. The certificate on each return of survey to be made in accordance with the proper form as printed in the annual reports of the Department.

9. When you return a survey of a part of a tract of land for patenting, you must specify the name of the warrantee, the date of the warrant and the number of acres contained in the whole tract, and on the draft represent the residue of the tract by dotted lines.|| But you are in no event to make and return to this Department a "re-survey" of a tract, either to include more land or to exclude any part, or in anywise alter the original boundary lines thereof, *unless authorized to do so by an order of the Board of Property*. When an order of re-survey has been issued and sent to you for execution, you are strictly to follow the directions therein contained.

10. You may make official returns of surveys actually made by your predecessors after having satisfied yourself of their correctness, and that they have been located according to the calls of the warrants.\*\*

11. Surveys intended to be returned to this Department must be made or approved by you.

12. You may survey and return any surplus not exceeding one hundred acres above the quantity mentioned in the warrant, location or order of survey. The purchase money or all surplus land surveyed on warrants

\* ¶ 4 of instructions issued in 1765.

† ¶ 4 of instructions issued in 1814, amended.

‡ From ¶ 5 of instructions issued in 1790.

§ From ¶ 3 of instructions issued in 1800.

|| ¶ 6 of instructions issued in 1813.

\*\* ¶ 9 of instructions issued in 1853.

must be first paid into the State Treasury before the return of survey can be accepted in this Department, of which you will give notice to the owner or owners of such warrant, and always send the money to pay the excess with the return of survey.\*

13. All returns of survey in order to conform with the files of the Department should be folded as follows: Double the sheet by bringing the upper and lower edges of the sheet evenly together, then fold in each side so as to make a form about two and seven-eighths inches wide and in length from six to seven inches, according to the size of the sheet. The back of the return should be left blank.

14. With each return of survey send a copy of the tabling and calculation thereof on a separate piece of paper.†

15. All returns to this Department must be under cover, directed to the Secretary of Internal Affairs, with your name subscribed on the back of the paper or envelope enclosing the same.‡

### III. OFFICE DUTIES.

16. You are to keep your office open for the reception of all warrants directed to you, which shall be entered in a book, kept for that purpose, distinguishing therein the name of the warrentee, quantity of land granted, date of warrant, and the day when you received it. Also, in another book, you shall keep fair and regular entries in order of time, of all surveys and resurveys by you made, in pursuance of any warrant or order of survey which you shall receive, with a draft or plot thereof, and field works annexed. And the Secretary of Internal Affairs shall, from time to time, have free access to said books of entries and to all other papers, relating to your office, which books and papers shall be delivered over by you to your successor.§

17. Under the provisions of the Constitution of 1873 you are required to keep your office at the county town, but if you desire letters sent to any other address advise this Department.

18. Before you can enter upon the duties of your office, you will have to comply with the seventh section of the act of Assembly, passed the 9th day of April, 1850, which requires you to take an oath or affirmation which must be administered in the "open" court of quarter sessions, and send a copy of said oath duly certified to this Department; also have your bond recorded in your county, and forward the same to the *Secretary of the Commonwealth*, with one dollar, the fee for filing *the same in his office*.

---

\* Act of 13th March, 1817; repealed by act of 6th April, 1830; restored by act of 21st April, 1869.

† Adopted 1853.—See forms D and E.

‡ Adopted June 7, 1824.

§ ¶ 8 of the instructions of 1765.

## RECENT LEGISLATION RELATING TO THE LAND OFFICE.

---

### COUNTY SURVEYORS.

#### THEIR DUTIES.

Under the Proprietary government, deputy surveyors were appointed by the Proprietary, the Commissioners of Property or the Surveyor General, for certain districts, and given authority to execute warrants or orders, by making surveys and returns thereof to the Land Office. The duties of these deputies were defined by letters of instructions, issued from time to time. Those dated the 28th of eleventh month, 1701, revised and enlarged in 1765, contain such directions as were then deemed necessary for the information and guidance of the deputies, and formed the basis of those now in force. The act of Assembly of the 9th April, 1781, establishing the Land Office under the Commonwealth, authorized the Surveyor General to appoint a deputy or deputies in any county of the State, who should have power to make and return into the Land Office surveys of land only in the county for which such deputy or deputies shall be appointed; and the act of 1st April, 1784, by virtue of which the Land Office was opened on the first day of July following, for the sale of the vacant lands of the Commonwealth, directed that its several officers should transact the business of the Land Office, agreeably to the former customs and usages thereof. By subsequent legislation the duties of the deputies were more clearly defined. The act of the 9th April, 1850, authorized the voters of each county, at the following general election and every third year thereafter, to elect one competent person, being a practical surveyor, to act as county surveyor for the proper county for the term of three years, who is required to do and perform all the duties which then pertained to the respective deputies of the Surveyor General.

#### TERM OF OFFICE.

[*Constitution, Art. XIV.*]

SECTION I. County officers shall consist of sheriffs, coroners, prothonotaries, registers of wills, recorders of deeds, commissioners, treasurers, surveyors, auditors or controllers, clerks of the courts, district attorneys and such others as may from time to time be established by law.

SECTION II. County officers shall be elected at the general elections and shall hold their offices for the term of three years, beginning on the first Monday of January next after their election, and until their successors

shall be duly qualified ; all vacancies not otherwise provided for shall be filled in such manner as may be provided by law.

TO KEEP OFFICE IN THE COUNTY TOWN.

SECTION IV. Prothonotaries, clerks of the courts, recorders of deeds, registers of wills, county surveyors and sheriffs, shall keep their offices in the county town of the county in which they respectively shall be officers.

TO HOLD OFFICE UNTIL SUCCESSOR IS QUALIFIED.

[*Act of 17th April, 1869. P. L., 67.*]

A SUPPLEMENT to an act, entitled "An Act relative to the election of Auditor General, Surveyor General and county surveyors by the people," approved April ninth, one thousand eight hundred and fifty.

SECTION I. That the persons now or hereafter holding the office of county surveyor shall continue to hold and exercise all the duties appertaining to said office, until their successors are duly qualified according to the provisions of the act to which this is a supplement.

## EXCESS.

[*Act of 21st April, 1869. P. L., 87.*]

AN ACT relative to returns of surveys to the office of the Surveyor General.

SECTION I. That so much of the second section of the act approved the sixth day of April, Anno Domini one thousand eight hundred and thirty, as restricts returns of surveys on warrants thereafter to be issued to an amount not greater than ten per centum beyond the number of acres for which the warrant issued, be and the same is hereby repealed : *Provided*, That any excess which may be returned under the provisions of prior laws shall be paid at the time of making such return of survey to the Surveyor General, otherwise the same shall not be accepted.

[Any surplus not exceeding one hundred acres may now be returned on any warrant or order of survey, provided that the money for such surplus accompanies the return. - See paragraph 12 of "Instructions to county surveyors."]

## FEES.

[*Act of 15th April, 1873. P. L., 75.*]

AN ACT relating to the fees of the Surveyor General.

SECTION 1. That from and after the passage of this act the fees to be collected by the surveyor general, for the use of the commonwealth, shall be as follows, namely :

|                                              |        |
|----------------------------------------------|--------|
| For warrant, including return thereof, ..... | \$5 00 |
| Patent for five acres or less, .....         | 5 00   |
| Patent for more than five acres, .....       | 10 00  |

|                                                                                                                                                |        |
|------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Copy of patent,.....                                                                                                                           | \$1 00 |
| Certificate with seal of office on patent, when mortgage is discharged,                                                                        | 50     |
| Every search,.....                                                                                                                             | 25     |
| Calculation of money due on land, including search,.....                                                                                       | 50     |
| Caveat, .....                                                                                                                                  | 1 00   |
| Issuing citation,.....                                                                                                                         | 1 00   |
| Recording application for and making order of re-survey,.....                                                                                  | 1 00   |
| Order of the Board of Property, directed by the Surveyor General to<br>the county surveyor to be executed,.....                                | 1 00   |
| Copy of action or determination of Board of Property, with seal, ..                                                                            | 1 00   |
| Order for valuing islands,.....                                                                                                                | 2 00   |
| Entering application on petition to the Board of Property, together<br>with the minutes thereon, for any other purpose than a re-survey,       | 1 00   |
| Certified copy of a draft of a single tract, with certificate and seal,                                                                        | 1 00   |
| Connecting separate drafts into one general draft, with certificate for<br>each separate draft therein,.....                                   | 75     |
| Copy of general draft of town or out-lots, for each tract of land<br>therein described,.....                                                   | 25     |
| Extract from a general draft, for each tract of land therein described,                                                                        | 25     |
| Copy of draft of lots or tract of land annexed to certificate of Con-<br>necticut claimants or others, for each tract,.....                    | 75     |
| Copy of warrant, application or any other office right, relating to but<br>one tract of land not hereinbefore enumerated,.....                 | 50     |
| Copy of extract from the deputy surveyor's list of returns, and all<br>other extracts not hereinbefore recited, for each tract,.....           | 25     |
| Copy of any record or paper or any part thereof, not included in the<br>foregoing, for two hundred words or less,.....                         | 50     |
| And for every ten words additional.....                                                                                                        | 1      |
| Certifying and affixing seal of office to any copy, connected draft,<br>extract, certificate or minute,.....                                   | 25     |
| SECTION 2. All laws and parts of laws inconsistent herewith are hereby<br>repealed, so far as they relate to the fees of the Surveyor General. |        |
| Entering lien under act of 20th May, 1864, for each tract .....                                                                                | \$5 00 |

#### LIENS FOR UNPAID PURCHASE MONEY.

1. Lists of unpatented lands to be forwarded to prothonotaries.
2. Unpaid purchase money, &c., to be entered on lien docket. Interest.
3. Prothonotaries to docket descriptive lists of unpatented lands. Courts,  
on hearing, may strike off such entry.
4. Supplied by paragraph 10.
5. Repealed by act of April 4, 1868.

6. Graduation act of 1835, continued until November 1, 1864.
7. Attorney General to proceed on liens.
8. Time allowed to persons in the military or naval service.
9. Changed by act of April 15, 1873.
10. Land lien dockets Entries thereon. Fees.
11. Repeals, sec. 5 of act of May 20, 1864.
12. Notice to be given when lien dockets have been forwarded to prothonotaries.
13. No suit to be entered for one year.
14. Release of liens on proof of payment.
15. Board of Property to regulate suits for unpaid purchase money. Interest not to be charged on fees.
16. Lists to be furnished to county surveyors.
17. County surveyors to give notice to owners or occupants.
18. County surveyors to make report to Surveyor General.
19. Surveys to be made of parts of original tract.
20. Suits to be by *scire facias*. Service.

[Act of 20th May, 1864. P. L., 914.]

AN ACT directing the entry of liens for the principal and interest due the Commonwealth, for lands held by virtue of locations, or other office titles.

1. SECTION I. That it shall be the duty of the surveyor general to make out a list of all lands held by location, or any other office right, issued from the Land Department of this commonwealth, of every kind and description, upon which no patents have issued, designating the county in which such lands are situated, with such other descriptions of the same as the records of his office will enable him to give, including the names in which such locations or other office rights are entered, and surveys have been returned; and on the list being completed, or any part thereof, be transmitted to the prothonotary of the county in which such lands are situated.

2. SECTION II. That it shall be the duty of the surveyor general to calculate the amount of purchase money, interest and fees, due on each unpatented tract; and after the descriptions of said tracts have been transmitted to the prothonotaries of the respective counties, and entered as hereinafter provided, the amounts so found to be due, together with five dollars for the labor and costs of making out and filing, shall form an aggregate sum which shall be entered in a lien docket to be provided and kept for that purpose, and said sum shall bear interest at the rate of six per cent.

3. SECTION III. That it shall be the duty of the prothonotary of each county, upon receiving any descriptive list as aforesaid, to provide a suitable docket, with a proper index, for the purpose of recording all such descriptions of unpatented lands, and shall accurately record the same and index the name of the original warrantee or actual original settler, as the case

may be, and each subsequent owner so far as ascertained, and preserve the same among the records of the county: *Provided*, That when any party in interest, by petition under oath or affirmation, setting out the facts in the case as in affidavit of defence, shall represent to the president judge of the court of common pleas of the county, in which any tract or piece of land, against which the entry directed in the foregoing section has been made, or the principal part thereof, may lie, that said tract has been patented, either in the name against which the entry is made, or in any other name, the said judge shall, after such notice to the surveyor general as he shall deem proper, proceed to hear the case of the petitioner; and the said judge shall, thereupon, make such decree in the premises, either by directing the said entry to be struck from the record, or such other order as to said entry, and also, as to costs, as may seem equitable.

4. SECTION IV. That it shall be the duty of the prothonotary of each county, upon receiving from the surveyor general any such list or calculation of amounts due the commonwealth for purchase money, interest and fees, to provide a suitable docket with index, in the form of the lien dockets now in use in the several counties of this commonwealth, to be styled "Lien Docket of Unpatented Lands," and enter therein the amount so found to be due, which sum shall remain a lien upon such tract or tracts, until paid; and that a fee of fifty cents be paid to the prothonotary for each description so entered, and that he be allowed the same fees on the liens entered as are now allowed on judgments entered by warrant of attorney in the court of common pleas.

5. SECTION V. That it shall be the duty of the prothonotary, upon receiving any such descriptive list, to cause the same to be published in two newspapers in the county where such lands are located, for three successive weeks, for which publication he shall be authorized to pay fifty cents for each tract, and charge the same as costs on the lien docket, and retain his fees and costs out of any moneys, in his hands, due the commonwealth.

6. SECTION VI. The amounts, which may be due to the commonwealth on the lands mentioned in the first section of this act, may be paid in accordance with the existing laws in relation to such lands, if the same be paid prior to the first day of November next: *Provided*, That any costs, which may have accrued in accordance with the provisions of this act, shall also be paid, and that the act to graduate lands on which money is due and unpaid to the commonwealth of Pennsylvania, approved April tenth, Anno Domini one thousand eight hundred and thirty-five, be revived and continued in force, until the said first day of November next; and any survey and appraisements, made since the first day of August last, shall have the same validity for the issuing of patents thereon, as if the last mentioned law had been still in full force.

7. SECTION VII. That all liens due the commonwealth for unpatented lands, after the first day of November, Anno Domini one thousand eight hundred and sixty-four, may be proceeded upon by the attorney general of the commonwealth, in the manner directed to be pursued against defaulting public officers, by the act of April sixteenth, one thousand eight hundred and forty-five, and the supplement thereto.

8. SECTION VIII. All persons, in the military and naval service of the United States, shall be allowed one year after the expiration of said service, for the taking out of any patent or patents under the provisions of this act.

9. SECTION IX.\* That, hereafter, the patent fee, on town lots not exceeding one-fourth of an acre, shall be one dollar, and on lots not exceeding two acres, five dollars.

[*Act of 4th April, 1868. P. L., 60.*]

A SUPPLEMENT to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini eighteen hundred and sixty-four.

10. SECTION I. That in lieu of the descriptive lists provided for in said act it shall be the duty of the surveyor general to make out and forward to the prothonotaries of the several counties, lien dockets, to be styled "land lien dockets," containing lists of all unpatented and patented lands, situate in the counties respectively, upon which there is money due the commonwealth, and in all cases where surveys have been returned, to enter therein the amount of purchase money, interest and all fees due, and said aggregate shall remain a lien on such tract until paid or otherwise legally discharged: *Provided*, That the several prothonotaries shall be allowed to charge the fees now authorized by law when any information shall be desired from said record, and for entering any certificate under the seal of the surveyor general, setting forth that any lien or part of lien against an unpatented tract has been paid, shall charge the party presenting such certificate a fee of twenty-five cents for entering and filing the same.

11. SECTION II. That the fifth section of the act to which this is a supplement, and so much of said act as is inconsistent herewith, be and the same is hereby repealed.

[*Act of 8th April, 1869. P. L., 21.*]

AN ACT directing public notice to be given when county land lien dockets are forwarded to the respective counties, and staying proceedings by the Attorney General for one year from the date of forwarding the same.

WHEREAS, The surveyor general, at an early day, will be prepared to send out the county land lien dockets, containing accounts due the commonwealth on account of lands, prepared under the act approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four,

---

\*Section nine changed by act of April 15, 1873.

and the supplement thereto, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight :

*And whereas*, It is proper that the people owing the state, for or on account of lands, should have notice when the liens therefor are entered in the counties, and that a reasonable time should be given to enable them to liquidate their indebtedness and obtain patents for their lands, before suits shall be brought in such cases by the attorney general ; therefore,

12. SECTION I. That when any county land lien docket, prepared under the foregoing acts, shall be forwarded to any county, the surveyor general is hereby authorized and directed to cause a notice thereof to be given in one English newspaper, published at the county seat of such county, and also in one German newspaper, if there be one in said county, setting forth that the land lien docket for that county has been forwarded to the prothonotary thereof: *Provided*, That no greater sum than ten dollars shall be paid for such notice or advertisement for any one county ; and on evidence being submitted to the auditor general that such advertisement has been authorized by the surveyor general, and inserted at the usual rates of advertising, he shall draw his warrant on the treasury in favor of the editor or publisher inserting the same.

13. SECTION II. That no suit or suits shall be entered or instituted by the attorney general, under the provisions of the seventh section of the act of the twentieth of May, Anno Domini one thousand eight hundred and sixty-four, until one year shall have elapsed from the date at which the surveyor general shall have forwarded to each county, respectively, the land lien docket for the same.

[*Act of 15th April, 1869. P. L., 31.*]

A FURTHER SUPPLEMENT to an act directing the entry of liens for the principal and interest due to the commonwealth for lands held by virtue of locations or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

WHEREAS, An examination of warrants and returns of survey show in many cases interferences in said returns, and in many instances where patents have issued on some of said surveys, there are balances due upon other warrants covering the same land ; therefore,

14. SECTION I. That whenever satisfactory evidence shall be given to the surveyor general that a lien or liens have been entered against lands for which the commonwealth has been fully paid, both for land and patent fees, he is hereby authorized, and it shall be his duty, to give to the party or parties applying for the same a release of said lien or liens, so far as said patented lands are concerned ; which said release may be entered on the

land lien docket, in accordance with the provisions of the supplement to the act of which this is a further supplement, approved the fourth day of April, Anno Domini one thousand eight hundred and sixty-eight.

[As many persons will apply for releases under the provisions of this law, it is deemed proper to state what will be regarded as satisfactory evidence by this Department. Applicants, in order to avail themselves of the act, should cause a plot or survey of the patented tracts, and the unpatented interfering tracts, (showing the manner in which, and to what extent, they cover the same land,) to be made by the county surveyor, who will certify that he has made the same at the request of A, B and C—the owners of the patented tracts, or parts of tracts, or their agents or attorney—giving names of warrantees and dates of warrants and patents, and names and dates of warrants of the unpatented lands, and that he believes the interference or interferences to be as delineated by him. On a paper appended to the above plot of surveys, the applicant or applicants, his or their agent or attorney, will be required to make an affidavit that the interferences are believed to be as delineated by the county surveyor. A release will then issue to the owner or owners of the patented tract or tracts, relieving them from any and all liability to pay the lien of the Commonwealth entered against such interfering unpatented tract or tracts.

Section seven of the act approved the 20th day of May, 1864, invested the Attorney General with authority to proceed against the owners of unpatented lands, to enforce the payment of the arrears of purchase money, interest and fees due the Commonwealth on said lands. This power, by the following supplement, became vested in the Board of Property.]

[*Act of 5th May, 1871. P. L., 261.*]

A FURTHER SUPPLEMENT to an act directing the entry of liens for the principal and interest due the Commonwealth for lands held by virtue of location or other office titles, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

15. SECTION I. That the board of property shall have full and discretionary power as to the time of entering suits and the number thereof, to be brought for the collection of liens against unpatented lands; and the attorney general shall proceed, under the seventh section of the said act to which this is a further supplement, when authorized to do so by the said board: *Provided*, That no interest shall be charged on patent or other fees.

[Owing to the continued depression of the general business interests of the State the Board have deemed it inexpedient to enforce the provisions of this act.]

[Act of 11th April, 1872. P. L., 51.]

A FURTHER SUPPLEMENT to an act directing the entry of liens for the principal and interest due the commonwealth for lands held by virtue of location or other office title, approved the twentieth day of May, Anno Domini one thousand eight hundred and sixty-four.

16. SECTION I. That for carrying into full effect the provisions of the act to which this is supplementary, it shall be the duty of the surveyor general to make out and forward to the several county surveyors respectively, from time to time, as the board of property may determine, special lists of warrantee names of unpatented tracts, or remaining parts of unpatented tracts, of lands within the several counties, as the same may appear upon the land lien dockets, with such other data relating thereto as he may deem necessary.

17. SECTION II. That it shall be the duty of the county surveyor of each county, to whom the surveyor general may send special lists of warrantee names of unpatented tracts or parts of tracts of lands, and other data relating thereto, situate in the county for which such surveyor shall have been elected or appointed, to endeavor to ascertain the names and residences of the owners, agents or occupiers, and location of said tracts or parts of tracts, or any of them, and to give personal notice in writing to said owners, agents or occupiers, that said tracts or parts of tracts are unpatented, and that unless the arrearages shall have been paid within six months from the time of sending or serving said notice, the board of property may direct proceedings to be commenced by the attorney general to enforce payment under the provisions of the act to which this is a further supplement: *Provided*, That when unpatented lands as aforesaid are unoccupied, and the owners are non-residents of the county, and have no known agent or agents within the county, the said notice may be given by sending it by mail, addressed to the owners or agents, and directed to the post-office nearest their place of residence or usual place of business: *And provided further*, That when lands as aforesaid are unseated, and have been sold for taxes, and the time limited for their redemption has not expired, it shall be the duty of the county surveyor to give notice, in the manner hereinbefore provided, to the purchasers or their agents, and also to the parties, or their agents, who last paid the taxes thereon previous to the sale.

18. SECTION III. That it shall be the duty of the county surveyor to whom such special lists shall have been sent as aforesaid, to make a written report in duplicate, within three months, to the surveyor general, filing a copy of the same in the prothonotary's office of each county, setting forth the names of warrantees, dates of warrants, location of tracts, and the names and residence of the owners, agents or occupiers of the unpatented tracts or parts of tracts, upon whom he has served the notices, as aforesaid, together

with the manner of service ; and for serving such notices on all the owners, agents or occupiers of an original unpatented tract, or remaining part of an original unpatented tract, he shall be entitled to a fee of five dollars, to be paid out of the state treasury, on warrants drawn by the auditor general, upon the certificate of the surveyor general.

19. SECTION IV. That it shall be the duty of the county surveyor, upon the reasonable request of any owner, or his agent, of part of an original tract which has not been patented, to make and return a return of survey of such part to the surveyor general, and for which service his fees shall be the same as for executing a warrant of survey, as now provided by law for the same quantity of acres.

20. SECTION V. That when any suits shall be entered by the attorney general, under the act to which this is a further supplement, it shall be by *scire facias sur liens*, which shall be directed for service to the sheriff of the county in which the lands is situate ; and if he finds it necessary to insure a service of said writ, he may call to his aid the county surveyor, who shall act as his deputy, for the purpose of serving such writ ; and all such writs shall be made returnable to the court of common pleas of the county wherein such lands are situate, where all such suits shall be tried.

---

SECRETARY OF INTERNAL AFFAIRS.

[*Constitution, Art. IV.*]

[Section I names the Secretary of Internal Affairs as one of the Executive department, and section 9 constitutes him a member of the Board of Pardons.]

SECTION XIX. [I.] The Secretary of Internal Affairs shall exercise all the powers and perform all the duties of the Surveyor General, subject to such changes as shall be made by law. His department shall embrace

[II] a bureau of industrial statistics,

[III] and he shall discharge such duties relating to corporations, to the charitable institutions, the agricultural, manufacturing, mining, mineral, timber and other material or business interests of the State as may be prescribed by law.

[IV] He shall annually, and at such other times as may be required by law, make report to the General Assembly.

SECTION XXI. The term of the Secretary of Internal Affairs shall be four years.       \*       \*       \*       \*       \*       \*       \*       \*

[*Art. XVII.*]

SECTION XI. The existing powers and duties of the Auditor General in regard to railroads, canals and other transportation companies, except as to their accounts, are hereby transferred to the Secretary of Internal Affairs, who shall have a general supervision over them, subject to such regulations

and alterations as shall be provided by law; and, in addition to the annual reports now required to be made, said Secretary may require special reports at any time upon any subject relating to the business of said companies from any officer or officers thereof.

[These provisions of the Constitution are enforced by acts of assembly, passed in pursuance thereof, approved respectively on the 11th day of May, 1874, P. L. 135; the 15th day of May, 1874, P. L. 172 and 193; and by the following:]

[*Act of 18th March, 1875. P. L., 27.*]

A SUPPLEMENT to an act regulating the election of secretary of internal affairs, approved eleventh day of May, one thousand eight hundred and seventy-four, relative to the management of said office.

SECTION I. That the commissioners of public buildings, together with the secretary of internal affairs, are hereby authorized and directed to make such additions to the building known as the office of the land department, as may be necessary for the proper performance of the duties imposed upon that officer by the provisions of the constitution.

[*Act of 8th May, 1876. P. L., 143.*]

A FURTHER SUPPLEMENT to an act regulating the election of secretary of internal affairs, defining his duties and fixing his salary, approved the eleventh day of May, Anno Domini one thousand eight hundred and seventy-four.

SECTION I. That the secretary of internal affairs and his chief clerk, who shall hereafter be designated deputy secretary of internal affairs, shall have power and authority to administer oaths or affirmations in any or all matters pertaining to the business of his department.

SECTION II. All maps, drafts, reports and other papers relating to surveys of state or county lines, state or turnpike roads, railroads, canals or other public improvements now remaining in the office of the secretary of the commonwealth, and not connected with the other records of his office, shall, as soon as practicable after the passage of this act, be transferred to the secretary of internal affairs, who is hereby authorized and directed to receive and deposit the same in his department; and all such maps, drafts, reports and papers as are now by law required to be placed in the office of the secretary of the commonwealth, shall hereafter be deposited in the department of internal affairs.

SECTION III. It shall be the duty of all commissions appointed to re-establish any of the boundary lines of this commonwealth, to erect a new county, or to annex part of one county to another county, to transmit a copy of their report to the secretary of internal affairs to be by him deposited in his department.

SECTION IV. It shall be the duty of all commissions appointed to re-survey, re-mark, alter or change any county line, to deposit duplicate copies

of their report in the office of the clerk of the court of quarter sessions of the proper county ; and after the same has been confirmed by said court, the said clerk shall upon one of the copies certify such confirmation, and immediately transmit the same by mail to the secretary of internal affairs to be by him deposited in his department.

SECTION V. Copies of all records, documents, entries and papers now in the department of internal affairs, or that may be transferred thereto in pursuance of this act, or that may hereafter be deposited therein according to law, shall be made and certified at the request of any person applying for the same, on the payment of the same fees as was prescribed by the fee bill for similar services in the surveyor general's office at the time the same was merged into said department, which fees shall be accounted for and paid into the treasury in the same manner as is now provided by law for other fees, to be collected by the said secretary ; and the said copies shall be received in evidence in the several courts of this commonwealth, in all cases where the original records, documents, entries and papers would be admitted in evidence.

\* \* \* \* \*

## WARRANTS.

[*Act of 14th April, 1874. P. L., 58.*]

AN ACT relative to the issuing of warrants to survey vacant lands.

SECTION I. That every applicant for a warrant to survey any of the vacant lands of this commonwealth shall produce to the surveyor general a particular description of the land applied for, with an affidavit of a disinterested witness, made before a justice of the peace of the township or borough in which the land applied for, or the greater portion of it, is situate, or if there be no justice of the peace in such township or borough, before a justice of an adjoining township or borough, specifying whether the said land be improved or not, and if improved, how long since the said improvement was made, that interest may be charged as now provided by law. The applicant for such warrant shall declare, upon oath or affirmation, before a justice of the peace of the township or borough in which the land or the greater portion of the same is situate, or if there be no justice in such township or borough, before a justice of an adjoining township or borough, that he verily believes that no warrant or other office right has previously issued for such land, or if one has issued, after giving full particulars in relation thereto, shall depose that he verily believes it has been abandoned ; and if at any time thereafter it shall appear that the person or persons deposing, as aforesaid, or any of them, shall knowingly have sworn falsely, such person or persons shall suffer all the pains and penalties of perjury.

SECTION II. No warrant shall issue for any tract or piece of land on which settlement is made, or which may be either in whole or in part cleared and fenced, or otherwise improved, used or occupied and held by defined boundaries, unless to such person or persons, respectively, who have made the settlement, clearing, fencing or improvement, their legal representatives or assigns, upon proof of ownership of such settlement or improvement right, and if any warrant shall issue otherwise than as aforesaid, it shall be void: *Provided*, That this section shall not apply to abandoned improvements.

SECTION III. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the surveyor general, give at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication once a week for three successive weeks, in one or more newspapers of the county in which the land is situate, and nearest its location, and shall furnish proof that such notice has been given, before a warrant shall issue: *Provided*, That if any *caveat* or *caveats* shall have been entered against issuing such warrant, the same shall not issue until directed by the board of property; and if the board of property, after a hearing upon a citation issued in pursuance of any *caveat*, shall decide against issuing the warrant, the purchase money shall be returned to the applicant.

SECTION IV. This act shall not apply to applications for warrants filed with the surveyor general before its passage.

---

## PRICES OF LAND IN PENNSYLVANIA AT VARIOUS PERIODS.

### PRICES UNDER PENN AND HIS HEIRS.

Previous to the 27th of December, 1762, £15 10s. (\$41 33) per hundred acres, with the exception of a few warrants in the lower counties at £3 10s. (\$9 33) per hundred.

From the 27th of December, 1762, to the 5th of August, 1763, £9 (\$24) per hundred acres.

From the 5th of August, 1763, to the 6th of August, 1765, £15 10s. (\$41 33.)

Locations and warrants from the 6th of July, 1765, to the 1st of July, 1784, £5 sterling (\$22 22.)

### PRICES UNDER THE COMMONWEALTH.

From the 1st of July, 1784, to the 3d of April, 1792, £10 (\$26 66 $\frac{2}{3}$ ) per hundred acres.

*New Purchase*, 1784.—From the 1st of May, 1785, to the 1st of March, 1789, £30 (\$80.)

From the 1st of March, 1789, to the 3d of April, 1792, £20 (\$53 33½.) .

From the 3d of April, 1792, to the 1st of September, 1817, £5 (\$13 33½) for land in the purchase of 1784, east of the Allegheny river and Conewango creek, unimproved.

*Purchase of 1763 and the Previous Purchases.*—From the 3d of April, 1792, to the 28th of March, 1814, at the rate of fifty shillings (\$6 66⅔) per hundred acres.

Lands in the purchase of 1784, lying north and west of the rivers Ohio and Allegheny, and Conewango creek, £7 10s. (\$20.)

Undrawn donation lands, from the first of October, 1813, at the rate of \$1 50 per acre.

Donation lands reduced, from the 25th of February, 1819, to fifty cents per acre.

From the 20th of March, 1814, lands within the purchase of 1768, and the previous purchases, to be at the rate of £10 (\$26 66⅔) per hundred acres.

From the 1st of September, 1817, lands within the purchase of 1784, east of the Allegheny river and Conewango creek, at the rate of £10, (\$26 66⅔,) except such as have been settled on, agreeably to the act of 3d of April, 1792, between said 3d of April and 1st of September, 1817.

Seventeen townships in Luzerne county—price fixed by the commissioners: First class, \$2 per acre; second class, \$1 20; third class, 50 cents; fourth class, 8¼ cents.

#### PRESENT PRICE.

The price of all vacant and unimproved land is now at the rate of £10 (\$26 66⅔) per hundred acres, except the following:

Lands lying north and west of the rivers Ohio and Allegheny, and Conewango creek, \$20 per hundred acres.

Reserve tracts near Erie, Waterford, &c., price fixed by commissioners.

Lands improved agreeably to the act of the 3d of April, 1792, fifty shillings, (\$6 66⅔,) and £5 (\$13 33½) per hundred acres.

Lands held by Virginia warrants in the south-west part of the State—the warrants show the terms. Lands were taken under Virginia warrants as low as ten shillings per hundred acres.

It is the practice in the Land Office to charge for the *excess* of land above *ten per cent.* on fifty shilling warrants, at the rate of £10 per hundred acres .

TABLES

Showing the price of from one acre to five hundred acres of Land of the various rates prescribed by the Proprietary and by the Commonwealth.

Warrants at £15 10s. per cent., 2 per cent. interest.

# FORMS.

## FORM No. 90.

### APPLICATION FOR UNIMPROVED LAND.

\_\_\_\_\_, of the \_\_\_\_\_ of \_\_\_\_\_, in the county of \_\_\_\_\_, appl--- for \_\_\_\_\_ acres of land, situated in the township of \_\_\_\_\_, and county of \_\_\_\_\_, adjoining lands of \_\_\_\_\_ on the east, \_\_\_\_\_ on the south, \_\_\_\_\_ on the west and \_\_\_\_\_ on the north.

To the Secretary of Internal Affairs of }  
the Commonwealth of Pennsylvania. } [Applicant sign.] \_\_\_\_\_

\_\_\_\_\_ County, ss :

Before me, the subscriber, a justice of the peace in and for the township of \_\_\_\_\_, and county aforesaid, personally came \_\_\_\_\_, a disinterested witness, who being sworn according to law, did depose and say, that to his certain knowledge the land described in the above application is unimproved.

Sworn and subscribed before me, this }  
\_\_\_\_\_ day of \_\_\_\_\_, 187—. } [Witness sign.] \_\_\_\_\_  
\_\_\_\_\_, J. P.

\_\_\_\_\_ County, ss :

Before me, the subscriber, a justice of the peace in and for the township of \_\_\_\_\_, and county aforesaid, personally came \_\_\_\_\_, the above named applicant, who being duly sworn according to law, did depose and say, that he verily believes that no warrant or other office right has previously issued for the land above described, either in his own name or in the name or names of any person or persons under whom he claims the same.

Sworn and subscribed before me, this }  
\_\_\_\_\_ day of \_\_\_\_\_, 187—. } [Applicant sign.] \_\_\_\_\_  
\_\_\_\_\_, J. P.

NOTE.—If there is no justice of the peace in the township in which the land is situated, the affidavits may be made before a justice of the peace of an adjoining township. In that case the justice should certify that fact.

After the application has been duly prepared, it should be forwarded to the Secretary of Internal Affairs, together with the proper amount of purchase money and warrant fee. The applicant must then give at least thirty days' notice of the filing of the application with the Secretary of Internal Affairs, with a full description of the land as set forth in the application by publication once a week, for three successive weeks, in one or more newspapers of the county in which the land is situated and nearest its location; and furnish proof that such notice has been given, before a warrant can be issued.

FORM No. 91.

APPLICATION FOR IMPROVED LAND.

[When date of improvement can be fixed.]

\_\_\_\_\_ of the \_\_\_\_\_ of \_\_\_\_\_, in the county of \_\_\_\_\_, appl\_\_\_\_\_ for \_\_\_\_\_ acres of land, situated in the township of \_\_\_\_\_ and county of \_\_\_\_\_, adjoining lands of \_\_\_\_\_ on the east, \_\_\_\_\_ on the south, \_\_\_\_\_ on the west and \_\_\_\_\_ on the north.

To the Secretary of Internal Affairs of } [Applicant sign.] \_\_\_\_\_  
the Commonwealth of Pennsylvania. }

\_\_\_\_\_ County, ss:

Before me, the subscriber, a justice of the peace in and for the township of \_\_\_\_\_ and county aforesaid, personally came \_\_\_\_\_, a disinterested witness, who, being sworn according to law, did depose and say that to his certain knowledge the land above described has been improved, and that it was first improved \_\_\_\_\_, A. D, \_\_\_\_\_, and not before, that the improvements thereon in the main consist of [Describe the improvements] and that [Here state whether there is any one now settled and residing on the land.]

Sworn and subscribed before me, this }  
\_\_\_\_\_ day of \_\_\_\_\_, 187\_\_\_\_. } [Witness sign.] \_\_\_\_\_  
\_\_\_\_\_ J. P. }

\_\_\_\_\_ County, ss:

Before me, the subscriber, a justice of the peace in and for the township of \_\_\_\_\_ and county aforesaid, personally came \_\_\_\_\_, the above named applicant, who, being duly sworn according to law, did depose and say that he verily believes that no warrant or other office right has been issued for the land above described, either in his own name or in the name or names of any other person or persons under whom he claim the same, and that he has an equitable right to the land and the improvements thereon by [Here give the nature of the right, whether by improvement, purchase, &c.]

Sworn and subscribed before me, this }  
\_\_\_\_\_ day of \_\_\_\_\_, 187\_\_\_\_. } [Applicant sign.] \_\_\_\_\_  
\_\_\_\_\_ J. P. }

NOTE.—If there is no justice of the peace in the township in which the land is situated, the affidavits may be made before a justice of the peace of an adjoining township; in that case the justice should certify that fact.

After the application has been duly prepared, it should be forwarded to the Secretary of Internal Affairs, together with the proper amount of purchase money and warrant fee. The applicant must then give at least thirty days' notice of the filing of the application with the Secretary of Internal Affairs, with a full description of the land as set forth in the application, by publication once a week, for three successive weeks, in one or more newspapers of the county in which the land is situated and nearest its location, and furnish proof that such notice has been given before a warrant can be issued.

## FORM No. 92.

## APPLICATION FOR IMPROVED LAND.

[When date of improvement cannot be fixed.]

\_\_\_\_\_ of the \_\_\_\_\_ of \_\_\_\_\_, in the county of \_\_\_\_\_ appl\_\_\_\_\_ for \_\_\_\_\_ acres of land, situated in the township of \_\_\_\_\_, and county of \_\_\_\_\_, adjoining lands of \_\_\_\_\_ on the east, \_\_\_\_\_ on the south, \_\_\_\_\_ on the west and \_\_\_\_\_ on the north.

To the Secretary of Internal Affairs of }  
the Commonwealth of Pennsylvania. } [Applicant sign.] \_\_\_\_\_

\_\_\_\_\_ County, ss :

Before me, the subscriber, a justice of the peace, in and for the township of \_\_\_\_\_ and county aforesaid, personally came \_\_\_\_\_, the above named applicant, who, after having been duly sworn according to law, did depose and say, that he ha made diligent search and inquiry and cannot find any person by whom he can prove the time at which the land described in the above application was first improved : And further, that he verily believe that no warrant or other office right has been issued for said land either in — own name or in the name or names of any other person or persons under whom he claim the same.

Sworn and subscribed before me, this — }  
day of \_\_\_\_\_, 187—, } [Applicant sign.] \_\_\_\_\_  
\_\_\_\_\_, J. P.

NOTE.—If there is no justice of the peace in the township in which the land is situated, the affidavit may be made before a justice of the peace of an adjoining township—in that case the justice should certify that fact.

After the application has been duly prepared, it should be forwarded to the Secretary of Internal Affairs, together with the proper amount of purchase money and warrant fee. The applicant must then give at least thirty days' notice of the filing of the application with the Secretary of Internal Affairs, with a full description of the land as set forth in the application, by publication once a week, for three successive weeks, in one or more newspapers of the county in which the land is situated and nearest its location ; and furnish proof that such notice has been given, before a warrant can be issued.

FORM No. 94.

PROOF OF NOTICE BY PUBLICATION OF APPLICATION FOR WARRANT TO SURVEY  
VACANT LAND.

\_\_\_\_ County, ss :

Before me, a justice of the peace, in and for said county, personally appeared \_\_\_\_\_, who, being duly sworn according to law, says that the notice appended, to wit: \_\_\_\_\_

\_\_\_\_\_, has been published once a week for three consecutive weeks in the \_\_\_\_\_, published at \_\_\_\_\_, and that the said \_\_\_\_\_ is a newspaper published nearest the land so applied for in said county, and that the said notice first appeared in the issue of said paper on the \_\_\_\_\_ day of \_\_\_\_\_ 18\_\_\_\_.

Sworn and subscribed before me, this }  
\_\_\_\_\_ day of \_\_\_\_\_, 187-. }  
\_\_\_\_\_, J. P. }

NOTE.—Extract from act of 14th April, 1874, relative to issuing warrants to survey vacant lands.

SECTION 3. Every applicant for a warrant to survey vacant land shall, after filing his or their application for such warrant, and depositing the amount of the purchase money and fee with the [Secretary of Internal Affairs,] giving at least thirty days' notice of the filing of said application, with a full description of the land as set forth in the application, by publication, once a week for three successive weeks, in one or more newspapers of the county in which the land is situate, and nearest its location, and shall furnish proof that such notice has been given, before a warrant shall issue.

FORM No. 95.

APPLICATION FOR PATENT WHEN THE PRESENT OWNER CAN GIVE A COMPLETE  
STATEMENT OF THE TITLE FROM THE WARRANTEE OR OTHER PERSON WHO TOOK  
OUT THE OFFICE RIGHT.

I, \_\_\_\_\_, of \_\_\_\_\_, in the county of \_\_\_\_\_, the present owner of \_\_\_\_\_ acres and \_\_\_\_\_ perches, and allowance of land, now situated in the township of \_\_\_\_\_ and county of \_\_\_\_\_, surveyed on a warrant to \_\_\_\_\_, dated the \_\_\_\_\_ day of \_\_\_\_\_, herewith forward the amount of purchase money, interest and fees due the Commonwealth, and request that a patent shall be issued in \_\_\_\_\_ name \_\_\_\_\_ for the said tract.

STATEMENT OF TITLE—

\_\_\_\_\_  
\_\_\_\_\_  
To the Secretary of Internal Affairs of }  
the Commonwealth of Pennsylvania. }

——— County, ss:

Before me, the subscriber, a justice of the peace in and for said county, personally came ———, the above named applicant who, being duly sworn according to law, did depose and say, that to the best of ——— knowledge and belief, the facts set forth in the foregoing application are true; and further, that he do not know of any other person or persons claiming title to the above described land, under the aforesaid warrantee.

Sworn and subscribed before me, this ——— }  
 day of ———, ———. }  
 ———, J. P. }

——— County, ss:

Before me, the subscriber, a justice of the peace in and for said county, personally came ———, a reputable citizen of the township and county in which the land is situated, for which a patent is asked in the foregoing application, who being duly sworn according to law, did depose and say, that he knows the applicant to be the reputed owner of the land described in the foregoing application.

Sworn and subscribed before me, this ——— }  
 day of ———, ———. }  
 ———, J. P. }

NOTE.—When there is more than one owner of the tract, or when the application is for part only of the original tract, the form can be varied to suit the requirements of the case.

### FORM No. 96.

APPLICATION FOR PATENT WHEN THE PRESENT OWNER CANNOT GIVE A COMPLETE STATEMENT OF THE TITLE FROM THE WARRANTEE OR OTHER PERSON WHO TOOK OUT THE OFFICE RIGHT.

I, ——— of ——— in the county of ——— the present owner of ——— acres and ——— perches, and allowance of land, now situated in the township of ——— and county of ———, surveyed on a warrant to ———, dated the ——— day of ———, herewith forward the amount of purchase money, interest and fees due the Commonwealth, and request that a patent shall be issued in name for the said tract. And further represent, that owing to the length of time which has elapsed since the warrant was taken out, and the great number of conveyances and assurances in law vesting title to the same, unable to give a connected statement of them.

To the Secretary of Internal Affairs of }  
 the Commonwealth of Pennsylvania. }

\_\_\_\_\_ County, ss:

Before me, the subscriber, a Justice of the Peace in and for said county, personally came \_\_\_\_\_, the above named applicant who, being duly sworn according to law, did depose and say, that to the best of \_\_\_\_\_ knowledge and belief, the facts set forth in the foregoing application are true; and further, that -he- do— not know of any other person or persons claiming title to the above described land, under the aforesaid warrantee.

Sworn and subscribed before me, this }  
 \_\_\_\_\_ day of \_\_\_\_\_. }  
 \_\_\_\_\_, J. P. }

\_\_\_\_\_ County, ss:

Before me, the subscriber, a justice of the peace in and for said county, personally came \_\_\_\_\_, a reputable citizen of the township and county in which the land is situated, for which a patent is asked in the foregoing application, who being duly sworn according to law, did depose and say, that to the best of his knowledge and belief, the aforesaid applicant-, and those under whom -he- claim- title, have held the above described tract of land by peaceable possession, and the exercise of ownership, for more than twenty-one years last past.

Sworn and subscribed before me, this }  
 \_\_\_\_\_ day of \_\_\_\_\_. }  
 \_\_\_\_\_, J. P. }

NOTE.—When there is more than one owner of the tract, or when the application is for part only of the original tract, the form can be varied to suit the requirements of the case.

FORM A.

FOR RETURN OF AN ORIGINAL SURVEY.

A draft of a tract of land situated in the township of \_\_\_\_\_, and county of \_\_\_\_\_, containing \_\_\_\_\_ acres \_\_\_\_\_ perches and allowance of six per cent. for roads, &c. Surveyed the \_\_\_\_\_ day of \_\_\_\_\_ 187—, in pursuance of a warrant granted to \_\_\_\_\_, dated the \_\_\_\_\_ day of \_\_\_\_\_, 18—.

\_\_\_\_\_ C. S.

To \_\_\_\_\_, Secretary of Internal Affairs.

## FORM B.

FOR RETURN OF A TRACT SURVEYED BY A FORMER DEPUTY OR COUNTY SURVEYOR.

A draft of a tract of land situated in the township of ———, and county of ———, containing ——— acres, ——— perches and allowance of six per cent. for roads, &c.

Surveyed the ——— day of ———, 187—, in pursuance of a warrant granted to ———, dated the ——— day of ———.

I hereby certify that the foregoing is a correct copy of a survey filed amongst the records of the county surveyor's office of this county, and that it has been examined by me and found correct.

—————, C. S.

To ———, *Secretary of Internal Affairs.*

## FORM C.

FOR RETURN OF A PART OF A TRACT FOR PATENTING.

A draft of a tract of land situated in the township of ———, and county of ———, containing ——— acres ——— perches and allowance of six per cent. for roads, &c.

Surveyed for ——— the ——— day of ———; it being a part of a larger tract of ——— acres ——— perches and allowance, originally surveyed in pursuance of a warrant granted to ——— dated the ——— day of ———.

—————, C. S.

To ———, *Secretary of Internal Affairs.*

NOTE.—When this form is used, the county surveyor should indicate by *dotted lines* the remainder of the original survey, thus showing the location of the part returned. See paragraph 9, of the instructions to county surveyors.

THE METRIC SYSTEM.

MEASURES OF LENGTH.

| Metric denominations and values. |                   | Equivalents in denominations in use. |
|----------------------------------|-------------------|--------------------------------------|
| Myriameter .....                 | 10,000 meters.    | 6.2317 miles.                        |
| Kilometer .....                  | 1,000 meters.     | 0.62317 miles, or 3,280 ft. 10 in.   |
| Hectometer .....                 | 100 meters.       | 328. feet 1 inch.                    |
| Dekameter .....                  | 10 meters.        | 393.7 inches.                        |
| Meter.....                       | 1 meter.          | 39.37 inches.                        |
| Decimeter.....                   | 1-10 of a meter.  | 3.937 inches.                        |
| Centimeter .....                 | 1-100 of a meter. | 0.3937 inches.                       |
| Millimeter .....                 | 1-100 of a meter. | 0.0394 inches.                       |

MEASURES OF SURFACE.

| Metric denominations and values. |                       | Equivalents in denominations in use. |
|----------------------------------|-----------------------|--------------------------------------|
| Hectare .....                    | 10,000 square meters. | 2.471 acres.                         |
| Are .....                        | 100 square meters.    | 119.6 square yards.                  |
| Centare.....                     | 1 square meter.       | 1550. square inches.                 |

MEASURES OF CAPACITY.

| METRIC DENOMINATIONS AND VALUES. |                |                             | EQUIVALENTS IN DENOMINATIONS IN USE. |                        |
|----------------------------------|----------------|-----------------------------|--------------------------------------|------------------------|
| Names.                           | No. of liters. | Cubic measure.              | Dry measure.                         | Liquid or wine measure |
| Kiloliter or stere,              | 1,000          | 1 cubic meter.....          | 1,308 cubic yards,                   | 264.17 gall's.         |
| Hectoliter .....                 | 100            | 1-10 of a cubic meter ..... | 2 bu. & 3.35 pecks,                  | 26.417 gall's.         |
| Dekaliter.....                   | 10             | 10 cubic decimeters.....    | 9.08 quarts .....                    | 2.6417 gall's.         |
| Liter.....                       | 1              | 1 cubic decimeter .....     | 0.908 quart .....                    | 1.0567 quarts.         |
| Deciliter .....                  | 1-10           | 1-10 of a cubic decimeter.. | 6.1022 cubic inch's                  | 0.845 gill.            |
| Centiliter.....                  | 1-100          | 10 cubic centimeters.....   | 0.6102 cubic inch..                  | 0.338 fluid oz.        |
| Milliliter .....                 | 1-1000         | 1 cubic centimeter.....     | 0.061 cubic inch ..                  | 0.27 fluid dr.         |

WEIGHTS.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | WM. LOUGHLIN,  
SAM'L HAWORTH, } Board of Revision of Taxes.

DEPARTMENT OF CITY CONTROLLER, }  
PHILADELPHIA, July 1, 1876. }

THOMAS COCHRAN, Esq.,

President of Board of Revision of Taxes :

DEAR SIR:—This will certify that the funded and guaranteed debt of the city of Philadelphia, on the close of June 30, 1876, was sixty-one millions one hundred and seventy-three thousand eight hundred and ninety-one dollars and seventy cents (\$61,173,891 70.)

Signed,

S. P. HANCOCK, City Controller.

TABULAR STATEMENT for the year A. D. 1876, showing the wards, boroughs and townships in the county of PIKE, and the gross amount of taxes levied and assessed in the wards, boroughs and townships for county and State purposes; also the amount at which all the real and personal property, and all matter and things made taxable by the laws of this Commonwealth for all State and county purposes whatever, were valued and assessed, made and entered, pursuant to the provisions in the acts of Assembly, 28th of February, 1835, 11th of June, 1840, 15th of May, 1841, &c., to wit:

|                     |              |  |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       |       | ## LUZERNE COUNTY AND THE CITY OF SCRANTON.

Section 42 of the act incorporating the city of Scranton, approved the 23d day of April, 1866, (P. L., 1049,) provides that all taxes within the said city "shall be collected by the city authorities, and at the expense of the said city; and all county taxes assessed and collected within the limits of said city, together with the taxes uncollected within the same for the year 1866, shall be collected for the use of said city, and paid into the treasury thereof; and said city shall not be required to pay any sum of money to the county of Luzerne in lieu of county taxes." Hence, the return on pages B. 65 to 68, inclusive, of this report does not include the valuation of the real estate of said city, and therefore does not fully represent the taxable property of the county.

It is apparent that the intention of the Legislature, in passing the act of the 15th day of May, 1874, under which the preceding returns were made, was to secure, for public information, a full statement of all the taxable property in the Commonwealth. This special provision in the charter of the city of Scranton seems to have been overlooked. The acts above referred to having been laid before Attorney General Lear, and his instructions in the premises solicited, he decided that the commissioners of Luzerne county, having no control over the assessment of property in the city of Scranton, could not be compelled to make any return thereof, nor could such a return be required from the authorities of that city, because they are not included in the act of 1874. The attention of the Legislature is therefore respectfully directed to this omission in the act of 1874, and to the necessity of some enactment requiring a return of the taxable property in the city of Scranton. The absence of such a return very materially lessens the valuation of Luzerne county, and affects the summary for the Commonwealth to the same amount.

## REVISION OF THE TAX LAWS.

The statutes providing for the valuation of property for taxation purposes, and for the assessment of taxes, have been so frequently changed by repealing, amending or extending enactments that the subjects of taxation can only be ascertained after a very careful examination of all the laws bearing upon the question. These receive a different interpretation in almost every county and often in the same county, and as a legitimate result there is not that uniformity in the method of taking an account of and valuing property and assessing taxes that is contemplated by our Constitution and laws. In a few counties the assessors have complied with the law in rating property at its actual value, "and at such rates and prices for which the same would separately *bona fide* sell;" in others the rate is one-

half or one-third of the actual value. Even in the same county property of equal value is rated differently.

The commissioners of several counties neglect to levy any State tax, and in others omit to collect such a tax from some items of personal property that are yet taxable for State purposes. Among the numerous evidences of the lack of uniformity of the prevailing system, your attention is respectfully directed to the following omissions in the county returns:

*Counties that have not made any return of excess of furniture.*—Adams, Armstrong, Butler, Cameron, Elk, Erie, Greene, Jefferson, M’Kean, Monroe, Northumberland, Perry, Pike, Potter, Snyder, Wayne and Wyoming.

*Counties that have not made any return of money at interest.*—Butler, Clearfield, Forest, M’Kean and Potter.

*Counties that have not made any return of the number and value of cows, &c.*—Erie, Lawrence and Perry.

*Counties that have not made any return of pleasure carriages.*—Erie, M’Kean, Potter and Tioga.

*Counties that have not made any return of salaries, occupations, professions, &c.*—Northumberland and Philadelphia.

Neither Bedford nor Fulton county assessed any State tax.

In Berks county, having, with the city of Reading, an area of 900 square miles and 33,180 taxable inhabitants, the aggregate valuation of real estate is \$19,178,884; and in Delaware, with an area of 195 square miles and 8,043 taxable inhabitants, the valuation is \$32,151,608. It is evident that the rules governing assessors in affixing valuations cannot be alike in these counties. Similar contrasts could be drawn between returns of other counties, but this is sufficient to direct attention to the fact that there is not that uniformity which should prevail.

The laws relating to the listing of taxable and exempt property, making valuations and levying taxes, could be greatly improved and simplified by careful revision. There should be uniformity throughout the Commonwealth as to the time at which the assessors shall begin their annual duties, in the form of their books, and in appraising property subject to taxation at its real value. Power should be delegated to some officer of the government to have supervision of the entire system and to enforce a compliance with the law.

#### PROPERTY EXEMPT FROM TAXATION.

The act of 5th April, 1849, requires each assessor to make a return to the commissioners of the proper county of all property exempt from taxation. To this return the assessor should be required to affix a valuation, which should be included in the return of the commissioners to this Department, so that an accurate valuation of all the property in the Commonwealth may be secured.

## STATISTICS.

In the last annual report of this Department attention was directed to the importance of collecting and publishing the statistics of agriculture. I then suggested that "it might be made the duty of the assessor on his annual official visit to collect such data as may be required in his ward, district or township and make return thereof to the county commissioners, and their duty to compile the returns for the several districts of the county and make a return for the county to this Department for publication. This plan would obviate the necessity for the creation of any new offices. The work could be done with comparatively little expense and by those who are best acquainted in their respective localities."

## MUNICIPAL INDEBTEDNESS.

The law of 1874, above referred to, provides for an annual report of the indebtedness of each county of the Commonwealth. A similar report should be required to be made by the proper corporate officers of each city, borough and township, showing the amount of the indebtedness of their respective corporations.

Respectfully submitted,

WILLIAM M'CANDLESS,

*Secretary of Internal Affairs.*
